Financial Instructions, 1879.—Allowance to Soldiers on discharge.

The following will be substituted for paragraphs 470 to 472 of the Financial Instructions, 1879, issued with Clause 62, Army Circulars, 1879:—

470. A soldier discharged to pension at home (except to deferred pension), may on discharge receive an advance on account of pension for 20 days, calculated at the rate of 1s. a day, such 20 days to reckon from the date of his ceasing to receive full pay on

discharge. This advance will not be made to non-commissioned officers and others discharged for the purpose of immediately joining the Permanent Staff of the Auxiliary Forces, nor to those who have been transferred to such Permanent Staff, and continue to serve thereon as Pensioners, subsequently to their discharge.

471. A soldier discharged to pension at any foreign station (except to deferred pension), may on discharge receive an advance on account of pension of 90 days, calculated at a rate not exceeding 2s. a day, if holding the rank of Serjeant, or any superior rank; or at a rate not exceeding 1s. a day if holding any lower rank, such 90 days to reckon from the date of his ceasing to receive full pay on discharge.

471a. The advance of pension, as also the allowance granted on discharge to soldiers not entitled to pension by Arts. 696 and 696a of the Royal Warrant of 16th October 1880 (Clause 255, Army Circulars, 1880), will be issued by the Paymaster or Acting Paymaster, from whom the soldier may be drawing his pay at the time of his discharge, and will be charged under the head of Vote 23, Out-Pensions, in the case of the advance of pension, and, as regards the allowance above mentioned, under the head of Regimental Pay, Vote 1.

471b. The advance of pension will be recorded in words on the back of the parchment certificate of discharge, which will be referred to by the officer who makes the first issue of pension, and the amount will be recovered and credited to the Vote for Chelsea Out-Pensions, Vote 23. The issue of pension will commence from the date on which the soldier ceases to receive regimental pay.

471c. Officers Commanding will be held responsible that the date to which the service is made up in the discharge documents and parchment certificate, corresponds in every case with the date to which the soldier last receives regimental pay.

471d. The regulations contained in the foregoing paragraphs will not apply to soldiers of the Colonial Corps.

2. With reference to the foregoing orders, the rate of pension to which a soldier may be admitted, will be notified subsequently, as usual, in the Pension Circulars on receipt of the decision of the Chelsea Board; but, in modification of the present practice, the pay, ration money, family allowance, and good conduct pay will cease absolutely from the date of discharge.

3. The allowance granted on discharge and the advance of pension will be paid by the Regimental Paymaster or Officer Commanding the Battery, from whom the man may be drawing his pay at the time of his discharge, and the advance will be adjusted by the Military Accounts Department on the first issue of pension.

In the event of the whole of the retirements allotted to a particular presidency not being taken up in that presidency, those remaining will be distributed in such manner as may be determined by the Government of India.

IV. Applications to retire will be considered and disposed of successively according to priority of proposed dates of retirement until the number of retirements allotted to the service shall have been accomplished, when retirements under this order will cease for the year. When the period to serve contains a fraction of a year, the fraction, if it be six months or under six months, will be excluded altogether; if it exceeds six months, it will be reckoned as a complete year.**XI.** Payments of the capitalized value of the annuity made in India under this order will be at the rate of exchange fixed for the adjustment of financial transactions between the Imperial and Indian Governments for the time being. Capitalized annuities of officers retiring in India can, on receipt of telegram announcing retirement, be paid to their agents in England, under power of attorney to be lodged at the India Office.**XII.** Officers who elect to receive an annuity in preference to the capital sum, will not, after their retirements have appeared in the Gazette, be allowed to capitalize such annuity under the provisions of this order; and it is to be understood that no separate applications of individual officers to retire after the present retirements have been allotted will be entertained on the basis of this order.

The time passed by an officer on the half-pay list of the Staff Corps

will not count towards the 12 years in the grade of Lieutenant-Colonel required to qualify for promotion to the Colonel's allowance. XIV. This Notification shall take effect on and after the 10th February 1881.

No. 501.—Read letter from the Mint Master, Calcutta, No. 961, dated the 15th September 1880, forwarding the Administration Reports of the Calcutta and Bombay Mints for the year 1879-80.

RESOLUTION.—The coinage of silver at the Indian Mints during the year under review exceeded that of any previous year since 1865-66 except 1877-78. The increase as compared with the preceding year corresponds nearly with the increase in the net imports of silver. The net imports and coinage of silver in each year from 1874-75 are as follows:—

	Net Imports.	Coinage.
1874-75	464 lakhs.	490 lakhs.
1875-76	155 "	255 "
1876-77	720 "	627 "
1877-78	1,468 "	1,618 "
1878-79	397 "	721 "
1879-80	7-7 "	1,025 "
TOTAL	3,991 "	4,736 "

Besides imported silver, the following amounts of bullion in the form of native ornaments, &c., which had been thrown on the market by sufferers from famine in Western and Southern India, were received for coinage in the Bombay Mint:—

1877-78	124 lakhs.
1878-79	116 "
1879-80	92 "

The Bombay Mint also received native coins of the value of 67 lakhs and 45 lakhs respectively in the two years 1878-79 and 1879-80. These were chiefly Baroda Rupees.

The coinage and the receipts and charges of each Mint including *pro forma* charges for interest on the capital sunk and for pensions, leave allowances, &c., for the years 1878-79 and 1879-80, are as follows:—

Coinage.	Calcutta.		Bombay.	
	1878-79.	1879-80.	1878-79.	1879-80.
Tale of pieces of all kinds	78,804,971	74,181,243	48,862,807	81,215,596

Copper	6,66,475	7,07,900
Receipts	5,41,985	5,17,277	11,59,614	18,51,834
Charges	9,99,252	9,40,543	7,77,132	8,83,540
Balance in favor of (+) or against (-) the Mint	4,57,267	4,23,566	3,82,482	9,68,294
Ditto ditto excluding <i>pro forma</i> charges	9,566	+28,865	6,87,925	13,11,172

The silver coinage of the Calcutta Mint in 1879-80 was 213 lakhs and of the Bombay Mint 812 lakhs. No silver was coined at the Calcutta Mint during the three months, August, September and October.

The chief item of receipt being the duty on silver coined, the receipts of the Calcutta Mint are much less than those of Bombay where the greater quantity of silver is imported. The best method of calculating gain on the coinage of copper which largely occupies the Calcutta Mint, has only lately been determined; and the financial result of the operations of that Mint is consequently to some extent under-stated; the gain cannot, however, be so large as to bring about the equilibrium between the receipts and charges. The result for 1878-79 would have been more favourable, had it not been for the unadjusted operative losses of the preceding year brought to account in that year.

The amount of miscellaneous work done in Calcutta is much larger than that done in Bombay. The receipts and charges on account of such work in each Mint were as follows:—

	Calcutta.		Bombay.	
	1878-79. Rs.	1879-80. Rs.	1878-79. Rs.	1879-80. Rs.
RECEIPTS.				
Medals	7,747	9,215	1,820	1,743
Seals and stamps	2,905	1,025	405	424
Balances and weights	4,642	2,698	40	277
Miscellaneous	7,754	14,699	7,542	4,123
TOTAL	23,048	27,637	9,807	6,572
CHARGES.				
Engravers	924	936	352	364
Workshop	3,097	2,803	1,217	1,220
Jewellers	671	1,175	50	5
Stores	10,903	13,509	6,393	4,158
TOTAL	15,595	18,423	8,517	5,754
PROFIT	7,453	9,214	1,290	818

The percentage of operative losses is widely different in the two Mints. The rate of melting loss was as follows:—

Calcutta	1878-79	1 anna 6 pies.
	1879-80	9.8 pies.
Bombay	1878-79	5 pies (.0269).
	1879-80	5 pies (.0283).

The silver coining loss in Calcutta is calculated to be at the rate of .0692 per hundred pieces against .0361 per cent. reported at Bombay. These discrepancies are not explained, and while Colonel Tennant's observation that "the whole process of dealing with the silver is so different in the two Mints that it is not possible to compare the figures obtained for the same operations," is entitled to consideration, the Governor General in Council is of opinion that the excessive loss in the Calcutta Mint must be to some extent preventible. Colonel Tennant hopes that the melting loss will be somewhat reduced now that coke furnaces are used, and the matter is without doubt one of considerable difficulty, but the Governor General in Council trusts that Colonel Tennant will continue to give watchful attention to it.

The Governor General in Council has much pleasure in acknowledging the services rendered by Colonel Tennant and Colonel White.

ORDER.—Ordered, that this Resolution be published in the *Gazette of India* and communicated to the Mint Masters, Calcutta and Bombay.

SPECIAL.

No. 80.—With reference to G. G. O. No. 582 of 1880, the Right Honourable the Governor-General in Council has much pleasure in directing the publication, for general information, of the following despatch from the Right Honourable the Secretary of State for India:—

MILITARY,

INDIA OFFICE;

No. 9. *London, the 6th January, 1881.*

To His Excellency the Most Honourable the Governor General of India in Council.

MY LORD MARQUIS,—I have considered in Council your Military Letter, No. 442, dated 12th October, 1880.

- I desire to express the entire concurrence of Her Majesty's Government in the terms of the General Order issued by your Excellency in Council on receipt from the Commander-in-Chief in India of the despatch from Lieutenant-General Sir F. S. Roberts, G.C.B., V.C., C.I.E., reporting the march of the force under his command from Kabul to Kandahar, and the successful engagement with the Afghans under Sirdar Mahomed Ayub Khan on the 1st September, 1880.
- Her Majesty's Government fully recognize the chivalrous spirit which animated Lieutenant-General Sir D. M. Stewart, G.C.B., commanding in Afghanistan, and which led him at a critical period to weaken the army under his command by parting with a large proportion of his best troops.
- The march from Kabul to Kandahar reflects the highest credit on Lieutenant-General Sir Frederick Roberts, and on the officers, non-commissioned officers and soldiers, British and Native, composing the force.
- The rapidity with which the long march was, under trying circumstances, accomplished, evidences the perseverance, efficiency, discipline, and spirit of the troops.
- Arrived at Kandahar, no time was lost. A successful reconnaissance in force was the precursor of an action resulting in the defeat and dispersion of the Afghan army, and the capture of their guns, 32 in number.
- The professional ability, foresight, and skill displayed by Lieutenant-General Sir Frederick Roberts were well seconded by the courage

and perseverance of the officers and men under his command, and thus Afghanistan has again had full experience of the power, loyalty, devotion and gallantry of the army of the Queen-Empress of India.

8. I have already had the gratification of informing you that Her Majesty has been graciously pleased to confer a separate medal and clasps upon the troops recently employed in Afghanistan, and also a bronze star on Sir Frederick Roberts's force in commemoration of the successful march from Kabul to Kandahar.

9. I have further the satisfaction of informing you that Her Majesty the Queen-Empress has been graciously pleased to express her high appreciation of the services of Sir Frederick Roberts and the force under his command.

I have, &c.,
(Sd.) HARTINGTON.

CHAPTER I.—*Preliminary.*

1. These Rules shall come into force throughout British India on the 1st April 1881 in supersession of the Rules promulgated by Notifications No. 196, dated 19th April, No. 996, dated 6th June 1879, and No. 92, dated 10th January, and No. 479, dated 8th May 1880.

FINANCIAL STATEMENT BY THE HON'BLE E. BARING.

EXPLANATORY NOTES.

1. The figures in this Statement are given in pounds, rupees being converted into pounds at the conventional rate of £1 = Rs. 10. In those cases where the pounds are true sterling the fact is expressly mentioned. Wherever the true sterling as well as the conventional sterling figure is given the conversion has been made at the rate of 1s. 8d. the rupee.
2. The explanations are throughout given on the figures as arranged in Appendix II, in which the revenue derived from Productive Public Works is shown separately from other heads of revenue, and the "Working Expenses and Interest" on Productive Public Works are shown separately from other expenditure.

1. As no measures will be submitted to the Legislative Council in connection with the finances of the year 1881-82 the Financial Statement takes the form of a written minute.

Preliminary.

I.—Accounts of 1879-80.

2. The Regular Estimates for the year 1879-80 were as follows:—

Accounts of
1879-80.

					£
Revenue	67,583,000
Expenditure	67,464,000
			Surplus	...	119,000

The Accounts show the following result:—

					£
Revenue	68,485,000
Expenditure	69,668,000
			Deficit	...	1,183,000

Excess Revenue.	3. The revenue, therefore, exceeded the Regular Estimate by £902,000. Of this excess £357,000 was due to increased receipts from Productive Public Works.
Excess Expenditure.	4. The expenditure exceeded the Regular Estimate by £2,204,000. The excess was almost wholly due to the war.
Net result including War Expenditure.	5. The net result was worse than the anticipations formed at the time the Regular Estimate was framed by £1,302,000.
Net War Expenditure.	6. The total amount of net war expenditure which figures in the Accounts of 1879-80, including that on the Punjab Northern and Frontier Railways, is £6,125,000.
Net result excluding War Expenditure.	7. Of this sum of £6,125,000 the Local Governments contributed £335,000. Excluding this contribution, the Imperial revenue would, but for the war, have exceeded the Imperial expenditure by £4,607,000. This result is satisfactory.
	8. The capital expenditure on <i>Productive Public Works</i> was £3,364,000, being £126,000 less than the Regular Estimate (£3,490,000). £599,000 was spent on Irrigation Works, £2,680,000 on State Railways, and £85,000 on the Madras Harbour Works.
Capital expenditure on Productive Public Works.	9. A sum of £9,731,000 also figures in the Accounts under the head of <i>Productive Public Works, East Indian Railway</i> . This is part of the price paid for the East Indian Railway.

II.—War Expenditure.

War Expenditure.	10. Before proceeding any further it will be convenient to deal with the question of war expenditure.
Budget Estimate, 1880-81.	11. In February 1880 the total net cost of the war, excluding <i>Frontier Railways</i> , was estimated at £5,752,000 (true sterling £4,793,000).
Revised Estimate, June 1880.	12. In June the war was estimated to cost £15,000,000 (true sterling £12,500,000) net.
Revised Estimate, October 1880.	13. In October a revised estimate was framed, based on the assumption that the evacuation of Southern Afghanistan would be complete by the end of March, and that no war expenditure would be incurred subsequently. This estimate amounted to £15,777,000 (true sterling £13,148,000) net.
Regular Estimate, 1880-81.	14. It is now estimated that the net cost of the war up to the end of 1880-81 will be £16,605,000 (true sterling £13,837,000) net. This is exclusive of a sum of £270,000 for compensation to camel-owners and to the native cavalry on account of horses, which was included in the October estimate. This sum will not be paid till 1881-82.
Budget Estimate, 1881-82.	15. In the Budget Estimate for 1881-82 war expenditure has been taken at £2,210,000 (true sterling £1,842,000) net, being £1,940,000 for the expenditure belonging to the year, and £270,000 remaining unpaid from 1880-81. Experience has shown the untrustworthy nature of any estimate of war expenditure that can be framed. £2,210,000 is merely the sum which it has been thought advisable to provide as ways and means for the year on the assumption that the evacuation of Southern Afghanistan will be complete by the end of May. I offer at this stage no actual estimate of the remaining cost of the war.
Cost of war exclusive of Frontier Railways.	16. Supposing, however, that this sum of £2,210,000 is spent, the war, exclusive of <i>Frontier Railways</i> , may at present be estimated to cost £18,815,000 (true sterling £15,680,000) net.
Cost of Frontier Railways.	17. The known and estimated net expenditure on <i>Frontier Railways</i> is £4,477,000 (true sterling £3,730,000).
Net cost of war including Frontier Railways.	18. Including this sum, and deducting £680,000 (true sterling £567,000), being the estimated gain from the war under <i>Railways and Telegraphs</i> , the total net war expenditure is at present estimated at £22,612,000 (true sterling £18,849,000). This is exclusive of a sum of £1,019,000 (true sterling £849,000) spent on the Punjab Northern State Railway, which was hurried on by reason of the war, and the expenditure on which, although the work was originally classed as productive, has been charged against revenue.
English contribution.	19. The English Treasury will contribute a sum of £5,000,000 sterling towards the cost of the war, that is to say, the debt of £2,000,000 sterling due by

India to the Home Treasury will be written off, and an annuity of £500,000 sterling paid to the Home Treasury of the Government of India for six years. The whole of this £5,000,000 will be applied to the reduction of sterling debt. There will, therefore, eventually be a permanent reduction in the home liabilities on account of interest on sterling debt; but the payment of the capital of the English contribution will not affect the amount of the Secretary of State's drawings. It would be inconvenient that the revenue during six years should be swelled by an extraordinary receipt of £500,000 a year. It has been decided, therefore, to bring the whole of the £5,000,000 to account at once. It will be observed that a sum of £2,000,000 figures in the Regular Estimates for 1880-81 and a sum of £3,000,000 in the Budget Estimates for 1881-82 on the revenue side of the account under *XXIX, Army*. I shall presently (paras. 70 and 71) explain the reasons for adopting this distribution between the two years.

20. This is not a proper occasion on which to discuss the policy of the Afghan War; yet I venture to express a hope that future Governments will bear in mind that, apart from indirect losses, such as the destruction of cattle, which form so important a portion of the capital of India, and apart from an expenditure of £5,496,000 (true sterling £4,580,000) on railways, which will probably yield but a slight return on their capital cost, the tax-payers of India and of England have paid or will pay about £18,815,000 (true sterling £15,680,000) in the attempt to carry that policy into execution.

21. The failure in the war estimates led to an examination of the system of Military Account and Estimate. Concurrently with various reforms in system of Account which in the course of the year have been instituted in India, a Committee composed of gentlemen well acquainted with the system of accounts in vogue both in England and in India was assembled by the Secretary of State in England. The thanks of the Government of India are due to the members of this Committee for their valuable report.

22. The failure of the war estimates arose from attention being directed too exclusively to the classified and audited expenditure, whilst the issues from the Civil Treasuries to the Military Department were neglected.

23. In considering the nature of the reforms to be introduced, the first point to which attention was directed was the necessity of obtaining the earliest possible information in respect to Treasury transactions. I proceed to state what has actually been done in this respect and what it is proposed to do.

24. The information on which we at present rely in respect to our current finance is—(1) An account of the receipts and disbursements of the month, classified in the manner in which they will ultimately appear in the Accounts; this is now ready about six weeks after the close of each month; (2) An estimate prepared towards the close of each month of the Treasury transactions of the month; (3) A monthly statement of the closing cash balance of each Treasury; except in the case of a few of the most distant and least important Treasuries, this information is available by the 9th of the month; (4) A statement, compiled about the 16th of each month, of the receipts and issues of the Civil Treasuries upon military account during the previous month; (5) Statements received from the 20th to the 24th of each month, also based upon the actual Treasury accounts, of the receipts under the chief heads of revenue during the previous month; for some of these we get, independently, telegraphic information from departmental officers.

25. It is manifest, if our present information be compared with that which was obtainable a year ago, that great progress has been made. Credit is due to the present Comptroller General (Mr. Westland) for the energy and intelligence with which he has set about the work of reform. A further improvement would, it is thought, be effected if the Treasury Officers were themselves to classify their monthly receipts and disbursements

under a few main heads of revenue and expenditure. Every officer in charge of a Treasury has, therefore, been instructed to furnish the Accountant General of his Province with an abstract account at the

General will telegraph the result to the Comptroller General. It is probable that at first the information obtained will be defective, by reason of the Treasury Officers being unaccustomed to observe the necessary classification of their receipts and disbursements. But I trust that in time any defects will be rectified. The system will come into operation from the 1st April. We hope to obtain the whole of the information for each month by the 15th of the following month. Experience will show whether it will not be possible to obtain it earlier, and whether it will not be advisable to place the Treasury Officers in direct communication with the Comptroller General.

Finance Accounts to be based on issues.

26. It has been decided that in the Finance Accounts the issues from the civil treasuries for carrying on military services shall be treated as expenditure, in accordance with the practice as regards Exchequer issues in England. This is the only safe system for financial purposes, because the issues from the treasuries do in fact represent the amount of expenditure for which funds have been necessarily provided. The alternative course of basing the figures in the Finance Accounts upon the results of classification and audit is unsafe, because it practically excludes from view, in a comparison with Budget Estimates, considerable charges awaiting classification and audit, and payments out of issues for which accounts have not been rendered. It thus presents an erroneous view of the financial position. The Regular Estimates for 1880-81 and the Budget Estimates for 1881-82 have been framed on the new system. I wish to draw special attention to this circumstance. Unless the nature of the change be borne in mind, erroneous conclusions may be drawn in comparing the Budget Estimates and the Regular Estimates for 1880-81.

New duties of Comptroller General.

27. A change is about to be made in the duties of the Comptroller General and the Military Accountant General. Their official relations towards each other will be more clearly defined. The Comptroller General will be the chief authority in all matters affecting the mode of keeping the public accounts including those of the military and other spending departments. He will be solely responsible for the general Finance Accounts, and will be the recognised channel for information in regard to the financial position as indicated in those accounts. He will be answerable for watching the issues for military and all other services and keeping the Government informed as to the actual progress of both revenue and expenditure.

New duties of Military Accountant General.

28. The Military Accountant General will occupy the position and exercise the authority of a Deputy Secretary for Finance in the Military Department, retaining his present duties, and will be specially charged with the function of watching and reporting upon the current military expenditure.

Comptroller General to submit an annual report.

29. In future the Comptroller General will submit to the Government of India annually a report in which the accounts of the year will be compared with the Budget Estimate of that year, and explanations will be given of the causes of increase or decrease, as well as a comparison between the accounts of the year and of that immediately preceding, with similar explanations. This report will be transmitted by the Government of India with their observations thereon to the Secretary of State, to be dealt with as he may think proper.

30. Such are the reforms which have been introduced or which it is proposed to introduce. They coincide with the recommendations of the India Office Committee, in which the Government of India concurs.

System of independent appropriation audit.

31. The expediency of establishing in India an independent appropriation audit to supplement the present departmental audit came under the consideration of the Committee. The conclusion on this subject was not unanimous. On the one hand it was held that the failure in the War Estimates did not arise from errors in the accounts which are the subject of audit, but from errors in the application of those accounts to the estimates. On the other hand it was urged that the separation of the functions of account and audit is a principle of unquestionable soundness and of universal applicability. The matter is under the consideration of the Government.

Explanation of slight reduction in cash balance on March 31st 1880.

32. Before leaving the subject of war expenditure, I have one further observation to make. When it was discovered that the war estimates had been framed on an erroneous basis, some surprise was expressed at the fact that, although it was estimated that about £5,500,000 in excess of the Budget Estimates would be spent before March 31st 1880 on account of the war,

the closing balance on that date was only about £1,180,000 below the original estimate. The explanation of this circumstance is as follows: The sum actually spent in excess of the Budget Estimate was £5,503,000. The balance on March 31st 1880 was actually reduced by £1,163,000. Of the remainder (£4,340,000) £2,300,000 had already appeared in the Accounts of 1878-79 under the head of Advances. The balance (£2,040,000) is due to the receipts being greater or the disbursements less than the estimate under various heads. The aggregate receipts and disbursements of the Government of India in one year are about £250,000,000. In dealing with such large and varied operations it is difficult, even in ordinary times, to frame a correct estimate of what the balance will be at any particular moment.

III.—Regular Estimates for 1880-81.

33. The Budget Estimates for the year 1880-81 were as follows:—

Regular Estimates, 1880-81.

£				
Revenue	66,746,000
Expenditure	66,829,000
Surplus				417,000

The Regular Estimates are as follows:—

£				
Revenue	70,768,000
Expenditure	77,037,000
Deficit				6,269,000

34. The Revenue will therefore, according to present calculations, be in excess of the Budget Estimate by £4,022,000. Of this sum £2,000,000 is due to the English war contribution.

Excess Revenue.

35. The Expenditure will be in excess of the original estimate by £10,708,000. This increase is due to an under-estimate of war expenditure. The result of the change of system to which I have already alluded (para. 26) is that the Regular Estimates of 1880-81 include not only the sums outstanding from 1879-80, but also the most recent military issues, which under the old system would have figured in the Accounts of 1881-82. The unaudited military expenditure belonging to 1880-81 which would, had the old system remained in force, have been included in the Estimates and Accounts of 1881-82, may be estimated at about £4,000,000. The increase of expenditure as compared with the sum originally estimated may, therefore, be taken at about £6,708,000.

Excess Expenditure.

36. Excluding from the revenue side of the account the extraordinary receipt of £2,000,000 and from the expenditure side the £4,000,000 due to the change of system, the net result is worse than the anticipations formed at the time the Budget Estimate was framed by £4,656,000.

Net result including War Expenditure.

£				
Revenue	70,768,000
Expenditure	...	77,037,000	...	
Deduct net war expenditure	...	11,665,000	...	
Surplus				5,396,000

37. The amount of net war expenditure, including that on the Punjab Northern and Frontier Railways, which figures in the Regular Estimates is £11,665,000.

Net War Expenditure.

38. Excluding war expenditure, the Regular Estimates show a surplus of £5,396,000. This result is satisfactory.

Net result excluding War Expenditure.

39. A few observations are necessary in respect to some of the chief items on either side of the account.

Explanation of details.

Revenue Side of the Account.

Land Revenue.

40. The Land Revenue is now estimated to give £21,753,000,* being £309,000 less than the Budget Estimate. A large amount of Land Revenue falls due in February and March. Recently the subordinate revenue officials have everywhere been occupied with the census. Hence the collections have been retarded, especially in Madras and the North-Western Provinces. The result is that the receipts of 1880-81 are diminished by about £445,000, and that those of 1881-82 will be proportionately increased.

41. The increase under *Customs* (£347,000) is a satisfactory sign of the general prosperity of the country. There has been a remarkable revival of trade during the year. The total value of the exports, exclusive of gold and silver, up to end of February was £66,289,000 as compared with £59,415,000 during the corresponding period of 1879-80. That of the imports was £48,396,000 as compared with £37,228,000.

Customs.

Salt.

42. The receipts from *Salt* are now calculated to fall short of the Budget Estimate by £488,000. It appears that the receipts of 1879-80, on which the Regular Estimate for 1880-81 was based, were abnormally high. The chief diminution occurs in Upper India. So far as can be at present ascertained, it is mainly due to two causes. In the first place, owing to the exhaustion of the stock of coarse salt in 1879-80 at the Sambhar Lake, the Inland Customs Department sold fine salt during the months of November and December 1879 at a price greater, indeed, than its cost of production, but considerably lower than its market value. The result was a large demand on the part of wholesale dealers and a subsequent cessation of demand until the large stocks taken off the hands of the department were consumed. Steps have been taken which will obviate any recurrence to this procedure. Secondly, during the current year the department has itself opened some central depôts. The immediate effect of this measure has been to diminish the demand for salt at the Sambhar Lake, while the wholesale dealers, whose stores will be superseded by the depôts, are working off the stocks they have in hand.

Opium.

43. *Opium* is estimated to yield £8,468,000 net, being £1,218,000 in excess of the Budget Estimate. So large an amount has never been received in any previous year. The price obtained for Bengal opium throughout the year averaged Rs. 1,362 a chest. In the course of last autumn, it was found that other crops were competing successfully with opium in Behar. The price paid to the cultivators was therefore increased from Rs. 4½ to Rs. 5 per seer. There was some stagnation in the trade of Malwa opium, the result, it is believed, of previous over-speculation.

Expenditure Side of the Account.

Military Expenditure.

44. Turning to the expenditure side of the account, of the total increase of £10,708,000, £9,299,000 appears under the head of *Military Operations in Afghanistan*. Apart from war charges, the net Military expenditure of the year is estimated at £15,463,000. There is an increase of £188,000 under *Frontier Railways*, which is also a war charge.

Refunds and Drawbacks.

45. The increase (£116,000) under the head of *Refunds and Drawbacks* is mainly owing to a double credit of £100,000 having been discovered in the accounts of 1878-79 under the head of *Salt*.

Superannuations.

46. The increase of £179,000 under the head of *Superannuations* is due to the cost of reducing the establishments of the Public Works Department having been under-estimated.

Railways.

47. The increase under head of *Railways* is mainly due to the capital expenditure on the Punjab Northern line having been £355,000, and the working expenses on the State Railways (mainly the Punjab Northern and Indus Valley) having been £247,000 in excess of the Budget Estimate.

Progress in Railway construction.

48. The progress which has been made in railway construction during the year reflects credit on the Director General of Railways and his staff. 1,104 miles have been opened to public traffic, making a total of 9,661 miles open to traffic in the whole of India. It is anticipated that 1,174 miles will be under construction during the year 1881-82.

Other Public Works and Irrigation and Navigation.

49. The increase of £224,000 under the head of *Other Public Works*, and of £123,000 under the head of *Irrigation and Navigation*, is due to the fact that the Provincial Governments are now spending their balances on

various works of material improvement. During 1879-80 these operations were restricted. The result was that the Provincial and Local balances accumulated.

50. The diminution of £316,000 under the head of *Loss by Exchange* is due to the fact that the Budget Estimate was framed on the basis of the home remittances amounting to £16,900,000, whereas only £15,090,000 have been remitted home. *Loss by Exchange.*

51. The capital expenditure on *Productive Public Works* is now estimated at £2,816,000, being £134,000 in excess of the Budget Estimate. Of this sum £2,045,000 will be spent on Railways, £700,000 on Irrigation, and £70,000 on the Madras Harbour Works. *Capital Expenditure on Productive Public Works.*

IV.—Budget Estimates for 1881-82.

52. Before I discuss the Budget Estimates of 1881-82 it will be desirable to state the basis on which those estimates have been framed. *Budget Estimates, 1881-82.*

53. Several points in connection with the existing fiscal system have recently formed the subject of representation to the Government by some important public associations. Some disappointment may not unnaturally be caused by the absence in this statement of any allusion to those points. They have received careful consideration, but the Government of India is of opinion that at the present moment, when the embarrassment caused by the partial occupation of a foreign country hangs as a dead weight on the whole financial situation, it would be inopportune to attempt any reforms in the fiscal system. It would certainly be imprudent to sacrifice any existing source of revenue, however insignificant. The consideration of any changes must, therefore, be postponed until military expenditure is reduced to its normal limits.

54. On one point, however, it has been decided to make some changes. In the debate in the Legislative Council of February 9th 1878, Sir John Strachey explained that in every ten years the Government of India would probably have to spend £15,000,000 on the relief of famine. If, he added, we provide "a *bonâ fide* surplus of £1,500,000 a year for 10 years, we shall have obtained our £15,000,000." *Famine Insurance.*

55. Some difference of opinion has existed as to whether the policy proclaimed in 1878 has been carried out effectually or not, but the policy itself met with general approval at the time of its enunciation, and has not since been impugned. Speaking on behalf of the Government of India I reaffirm that policy; but it is proposed to make certain modifications in the procedure in connection with it.

56. Up to the present time the sum of £1,500,000 has not been included in the expenditure of the year. It is now proposed to treat it as expenditure.

57. It is necessary to explain the manner in which, under instructions from the late Secretary of State, the expenditure of this sum of £1,500,000 is distributed. Lord Cranbrook directed that £750,000 was for the present to be applied to the reduction of debt in England, and that the remainder was to be appropriated, at the discretion of the Government of India, to— *Distribution of money to be applied to Famine Insurance.*

"the extinction of debt, to the relief of famine, or to the construction of protective works, not necessarily directly remunerative, but obviously protective in the sense of guarding against a probable future outlay in the relief of the population."

58. The particular Protective Works which the Government of India will recommend to the Secretary of State for the year 1881-82 are the continuation of the Nira canal works in the Bombay Presidency, the commencement of a railway from Rewari towards Hansi in the Punjab, the completion of the line from Bellary to Hospett in the Madras Presidency, and the commencement of a branch line from Hotgi, in the neighbourhood of Sholapur, to Bijapur. It may perhaps also be found possible to make a commencement of the Betwa Canal in Bandalkhand. Provision has been made in the Budget for £750,000 to be placed at the disposal of the Public Works Department with a view to the commencement of these works. *Protective Public Works.*

Reduction of
Sterling Debt.

59. I turn to the second branch of the subject, *viz.*, the disposal of the £750,000 which is to be applied to the reduction of sterling debt.

60. The disposal of this sum of money raises some difficult questions of principle. Does the application of this money to the reduction of debt, whilst at the same time the Government continues to borrow for Productive Public Works, involve the old fallacy of a sinking fund without a surplus? It is this question, on which there may well be two opinions, which has to a great extent given rise to those doubts in respect to the execution of the Famine Insurance policy to which I have already alluded.

61. The soundness or otherwise of the policy depends upon the answer which can be given to the question—is it desirable to convert sterling into rupee debt? The Government is of opinion that, within certain limitations, it is desirable to effect this conversion.

62. The grounds for holding this opinion are as follows :—

- (1) It is essential to a sound condition of State finance that the elements of certainty and stability should prevail to as great an extent as possible. No such certainty or stability can be attained if the State owes a large sum of money in a currency other than that in which it collects its revenue.
- (2) It is desirable in years of prosperity to reduce the home liabilities, in order that, in times of emergency, the Government may fall back on the London market and borrow without any aggregate increase in their amount.

63. It may perhaps be urged that the object in view will, in any case, only be attained in appearance, and not in reality; that it signifies little whether interest is payable in gold or silver, or whether a loan is issued in London or Calcutta, for that in either case the money will be subscribed by investors resident in Europe, and that the so-called *Loss by Exchange* depends, not on the amount of the Secretary of State's bills, but on the cumulated transactions of the Secretary of State and the public.

64. If this argument is carried out to its logical conclusion it involves a reversion to the policy of contracting sterling loans whenever it is possible to obtain money by such means cheaper than by contracting to pay interest in silver. The adoption of this course, although in contradiction to the principles which have been laid down by successive Secretaries of State, is advocated by many high authorities.

65. The Government is of opinion that it would be inexpedient at present to revert to the policy of contracting obligations in gold, for the following reasons :—

- (1) The best solution of the question would be to obtain money from local investors at the same rate as from residents in Europe. If Government loans are issued in India, and if the interest is payable in silver, we may hope to attract some local capital. If they are issued in London, and the interest is payable in gold, we are almost certain to attract no local capital.
- (2) It is the opinion of those who speak with the authority of long practical experience that the effect on exchange of the amount which India has annually to remit to England would not be so oppressive if the bills to be placed on the market were more equally distributed between the Secretary of State and the public.
- (3) Any extension of our sterling obligations is in the nature of a speculation, which may prove successful or the reverse according to whether the value of silver in respect to gold rises or falls.

66. Although, however, the advantages of remitting to England in order to extinguish sterling debt may be admitted, it is possible to pay too high a price for those advantages. The difference between the value of rupee and sterling stock may be so considerable as to render the transaction undesirable. Further, there are practical difficulties in the way of giving effect to the policy. The amount of the home disbursements is now so large that unless there be a rise in the value of silver, or unless the amount of exports is

increased, it may be difficult to remit home £750,000 more than at present. For these reasons the Government cannot take any positive pledge that even when a *bond fide* surplus of receipts over expenditure is secured it shall be applied to the reduction of sterling debt.

67. With a view to the effectual execution of the Famine Insurance policy, it is in contemplation to nominate a Commission for the reduction of debt. The precise constitution and duties of the Commission have not as yet been determined. Should there be no *bond fide* surplus of receipts over expenditure, or should that surplus be less than £750,000, the Government will publish its reasons for not transferring any money or a less sum than £750,000 to the Commissioners. Should it be found desirable to invest the money temporarily, rather than to apply it at once to the extinction of sterling debt, the decision as to the nature of the investment will rest with the Government.

Appointment of Commissioners for the reduction of debt.

68. The present policy of the Government, therefore, is to provide £1,500,000 a year as an insurance against famine. The first use to which this money will be applied is the relief of famine. Should no expenditure under this head be required, £750,000 will be applied to the construction of Protective Public Works. The remainder (£750,000) will, in the event of there being a surplus of receipts over expenditure, be transferred to the Commissioners for the reduction of debt. This, I say, is the present policy of the Government. Like any other policy it is liable to change; but the particular point on which I wish to lay some stress is, that the amount to be provided as an insurance against famine is only so far dependent upon the receipts from the License Tax and the Public Works Cesses that those receipts go to swell the general revenue, and by so much facilitate the execution of the policy in question. The policy of the Government is, in fact, to apply annually a specified sum from the general revenue in order to provide an insurance against famine. There is no special connection between the amount so provided and the amount received from the License Tax or the Public Works Cesses. Those taxes have never yielded so large a sum as £1,500,000 in any one year.

69. It is to be borne in mind that up to the present time the policy of the Government has been to provide a surplus of £2,000,000, of which £1,500,000 was for Famine Insurance, and £500,000 was for any extraordinary contingencies that might arise. I have explained that the £1,500,000 for Famine Insurance will henceforth be treated as expenditure. This sum is entered under *Famine Relief, Protective Works, and Commissioners for Reduction of Debt*, in the estimates for the year. The surplus which we wish to attain is thus reduced to £500,000.

Basis on which Estimates are framed

70. I have already stated (para. 19) that of the £5,000,000 sterling contributed by the English Treasury, it is proposed to bring £2,000,000 to account in 1880-81 and £3,000,000 in 1881-82. The reason for adopting this distribution is that, including a provision of £790,000 for *Frontier Railways*, the net war expenditure which figures in the Budget Estimates for 1881-82 is £3,000,000. By bringing £3,000,000 of the English war contribution to account in 1881-82 as revenue we are able to present a budget, the net result of which is so far normal that it is undisturbed by expenditure on account of the war.

71. The distribution of the £5,000,000 will be re-adjusted before the Accounts of 1880-81 are closed, so as to show, as far as possible, in the Accounts of 1881-82 an amount equal to the expenditure in that year on the war and on *Frontier Railways*, and to enter the rest in the Accounts of 1880-81. The object of the distribution throughout will be to leave the Estimates and, as far as possible, the Accounts of 1881-82, undisturbed by the war in any shape.

72. With these preliminary explanations I proceed to state the Estimates for the year. They are as follows:—

Estimates.

				£
Revenue	70,981,000
Expenditure	70,126,000
				<hr/>
Surplus	855,000
				<hr/>

Surplus exclusive of
abnormal receipts
from Land Revenue.

73. I have already explained (para. 40) that the revenue of 1881-82 is swelled by an abnormal receipt of about £445,000, being the amount of *Land Revenue* whose collection in 1880-81 has been retarded by reason of the census operations. The normal receipts of a year from *Land Revenue* may now be taken at £22,050,000. The amount for which credit is taken in the Estimates for 1881-82 is £22,495,000. Deducting the sum of £445,000, the surplus shown on the Estimates is £410,000.

Explanation of details.

74. A few observations are necessary in explanation of some of the details of the Estimates.

Revenue Side of the
Account.
Customs.

75. The receipts from *Customs* are estimated at £2,367,000, being £155,000 less than the Regular Estimate of 1880-81. It would be unwise to count upon a continuance of the recent activity in the import trade.

Opium.

76. Under instructions from the Secretary of State, *Opium* is taken at a low figure, namely, £6,500,000 net.

Provincial and Local
Deficits.

77. The large increase (£709,000) under the head *Provincial and Local Deficits* is due to the fact, to which I have already alluded (para. 49), that the Local Governments are spending their balances on material improvements. This is an adjusting item. Analogous charges are distributed under various heads on the expenditure side of the account, mainly under those of *Irrigation and Navigation*, where there is an increase of expenditure of £185,000, and *Other Public Works*, where there is an increase of £505,000. Provision has been made for Provincial Public Works expenditure to the amount of £1,079,000 in excess of the Budget Estimate for 1880-81.

Expenditure Side of
the Account.
Interest on Debt.

78. Turning to the expenditure side of the Account, the increase of £380,000 under the head *Interest on Debt* as compared with the Regular Estimate of 1880-81, is in part due to the fact that, owing to the re-arrangement of dividend days when the 5 per cent. sterling loan was converted into 4 per cent. stock, a nominal saving of £172,000 was made in the year 1880-81. £35,000 is to provide for interest on £1,000,000 $5\frac{1}{2}$ per cent. stock issued to take the place of East Indian Railway debentures. The balance (£173,000) is mainly for interest on money borrowed in 1880-81 and to be borrowed in 1881-82 in India.

Marine.

79. There is an increase of £197,000 under the head of *Marine*, mainly due to the purchase of a new troopship for use in India.

Loss by Exchange.

80. *Loss by Exchange* has been estimated at £3,475,000, on the assumption that £17,200,000 will be remitted home at 1s. 8d. the rupee. There appears on the revenue side of the Account a *Gain by Exchange* of £412,000. Thus the net *Loss by Exchange* is estimated at £3,063,000. I need hardly point out that these are adjusting entries, and the difference between them does not furnish the true measure of the loss to India from the recent change in the relative values of gold and silver. In order to arrive approximately at the real loss by exchange, we must assume a normal relative value between gold and silver. When that relative value was as 1 to $15\frac{1}{2}$ the 165 grains of pure silver contained in a rupee were worth 1s. $10\frac{1}{2}$ d. The net sterling expenditure at the Home Treasury of the Government of India may now be taken at £14,750,000 (true sterling). £14,750,000 at 1s. 8d. the rupee equals Rs. 177,000,000. At 1s. $10\frac{1}{2}$ d. the rupee, £14,750,000 equals Rs. 156,464,000. The difference is Rs. 20,536,000. On this basis, therefore, the real loss to the Indian Treasury in 1881-82 resulting from the disturbance of the equilibrium previously existing between gold and silver may be estimated at £2,053,600.

Capital
Expenditure on
Productive
Public Works.

V.—Capital Expenditure on Productive Public Works.

81. A sum of £1,405,000 appears under the head of *Productive Public Works* in the estimates for 1881-82 on account of the purchase of the Madras Irrigation Company's undertaking, and £860,000 on account of Capital Expenditure on the East Indian Railway. £2,608,000 appears as Capital Expenditure on Productive Public Works. Of this sum £108,000 is the unexpended balance of the grants of former years. The balance (£2,500,000) represents the Productive Public Works grant for the year. It is intended to spend £1,780,000 on Railways, £758,000 on Irrigation, and £70,000 on the Madras Harbour Works.

82. No subject has of late years been more thoroughly discussed than the question of whether it is desirable or not to continue the policy of borrowing

in order to construct Productive Public Works in India. In 1879 a Committee of the House of Commons recorded its opinion that the expenditure upon railways and irrigation—

“though not remunerative in the aggregate, has upon the whole been beneficial to India, and that although considerable sums have been wasted and certain profitless schemes undertaken, the policy of continuing to borrow for Productive Public Works may, within the limits and restrictions hereinafter laid down, be continued.”

The Committee then proceeded to lay down certain restrictions, the principal of which was that no more than £2,500,000 should for the present be borrowed in any one year. The limited amount of capital available in India,—the undesirability of adding to the sterling debt,—the fact, to which the Committee allude, that in India there is little or no publicity, and still less extraneous engineering talent to criticise the projects emanating from the Public Works Department,—the unavoidable difficulties encountered by any great central department, however zealous and intelligent its individual members may be, in exercising an effective control over the expenditure of vast sums of money,—appear to justify this restriction. Successive Secretaries of State have adopted the principles recommended by the Committee. The present Secretary of State has given somewhat greater precision to the instructions of his predecessors. It has been laid down that—

“The question of constructing new railways is to be considered on commercial principles. No new line is to be undertaken, unless there is good prospect of its proving remunerative; that is to say, unless it can be fairly calculated to pay, within a maximum limit of five years from the date of the line being open for traffic, 4 per cent. on the capital invested, including therein all arrears of simple interest incurred up to that date, and also the capitalised value of the Land Revenue and of Leave Allowances and Pensions.”

In the case of irrigation works it is said—

“Commercial principles may be so far relaxed as to admit of their being undertaken if they can fairly be estimated to prove remunerative in ten years from the date of their completion, on similar terms.”

83. Such are the instructions of Her Majesty's Government, and it would, in any case, be the duty of the Government of India to carry them into execution. But I wish to express my concurrence in the principles which have been laid down.

84. It is, however, manifest that a capital expenditure of £2,500,000 a year is inadequate to meet the present wants of India. Are we therefore to abandon all hope of constructing canals and railways with the rapidity which the exigencies of the country demand? I hope not. It has always appeared to me a remarkable fact that India,—with all its magnificent and, as yet, only half-developed resources, and with all the security to life and property resulting from a Government, which, whatever be its defects, is at all events strong, honest, and well-intentioned,—should up to the present time have been obliged to pledge the full security of the State in order to attract any considerable portion of the surplus capital of England. I hope that some railways afford sufficient attraction to induce private individuals to undertake their construction without the aid of Government, or, at all events, with a minimum amount of such aid. I do not question the wisdom of the policy which would permit private capitalists to embark in this field. It was therefore with pleasure that I read the following instructions which have been received from the Secretary of State:—

“In the case of railways; I do not doubt that Your Excellency will bear constantly in mind the importance, whenever possible, of ensuring their construction by private capital, either local or European. It is true that up to the present time no companies have been found willing to undertake the construction of railways without a Government guarantee; but I would, nevertheless, strongly urge upon Your Excellency that, when any reasonable prospect of success presents itself, an endeavour should be made to encourage the raising of capital through private agency, on the exclusive security of the success of the undertaking. Any step in this direction will meet with my most cordial support and co-operation. In the event of its becoming apparent that the due execution of this policy is impracticable, it may become desirable to consider whether a modified system of guarantee might not advantageously be adopted. By a modified system I mean one so restricted in respect to time and to the rate of interest guaranteed as to give the subscribers a real interest in the efficient and economical administration of the railway.”

85. It is sometimes urged that a railway is a monopoly, and, for that reason, should be in the hands of the State, and not of any private interests. Further, that to concede the right of building a railway is to part with one of our most productive resources.

86. It is true that a railway is generally a practical monopoly. The State, therefore, should exercise so much supervision over its working as will prevent the monopoly being exercised in a manner detrimental to the public interests. Thus the State should possess a right of inspection, in order that the line may be certified by competent authority to be safe for the transport of goods and passengers. It should regulate the maximum tariff and fix the gauge on which the line is to be constructed. It is especially necessary that a conditional right of purchase after the lapse of a certain period should be reserved. But when provision has been made for these and some other points, which I will not now enumerate, the necessity for State interference ceases. The interests of the public do not necessarily demand that the State should create an artificial monopoly in its own favour in respect to the construction of all railways.

87. As regards the loss of revenue, it may be urged that if the profits of the railway be left to fructify in the pockets of the people they will be more advantageously employed than would be the case were they paid to the State, with a great chance of their being employed on unproductive expenditure. Moreover it is to be observed that the indirect benefits to the State and to the country resulting from the extension of railway communication are obtained equally well whether the railways are constructed by Government or by private agency. The value of land is enhanced; new markets are opened; an impetus is given to the export trade, and the greater power of transport and concentration affords a hope that military expenditure may be reduced.

88. Even if the general arguments in favour of constructing railways solely through the agency of the State were more valid than I conceive them to be, I should still hold that those arguments did not apply in India. The first economic requirement of India is that her resources should be developed without delay, and that means of communication should be so improved as to facilitate emigration from districts which are over-populated to those in which labour is scarce. I doubt whether Government agency alone can adequately perform this task, and I hold that in any case it is not desirable that it should do so if private agency can be found to undertake the work. I am not without hope that, if an impulse can be given to railway construction by British enterprise, Native capitalists will enter the field, either alone or in conjunction with Englishmen. I should regard such a movement as an important factor in the practical education of the people, inasmuch as it would tend to wean the Natives of India from that dependence upon Government which is intensified by concentrating in the hands of the State all the organised skill which the construction and management of a railway requires. If ever the Natives of this country are to be schooled in the first rudiments of self-government it is desirable that they should be encouraged to act for themselves in such matters, rather than that they should rely always upon that coercive philanthropy which insists upon doing everything for them.

89. A more real obstacle to the construction of railways by private agency without a Government guarantee is to be found in the fact that up to the present time it has not been found possible to form a company willing to undertake them. In fact, the impossibility of inducing capitalists to undertake the construction of railways in India at their own risk with a minimum amount of Government interference was one of the main reasons which led to the adoption of State agency in the place of the guarantee system in 1869.

90. Since 1869 the desirability of encouraging private capitalists to make railways without a guarantee has been frequently pressed upon the Government of India, and it has always been assumed that the policy was impossible of execution. It does not, however, follow that what was impossible twelve years ago is so now. During that period the financial aspect of railway enterprise in India has improved, whilst at the same time the amount of capital seeking investment in the world has increased. I am not over-

sanguine as to the possibility of developing the resources of India rapidly through the agency of private enterprise, but the end to be attained is so important that the policy merits a further trial. Some progress has already been made. A Company has been formed under the auspices of Messrs. Rothschild with a view to the construction of a railway from Calcutta to Jessore and Khoolna. I am hopeful that the example given by a firm of such high standing and reputation as Messrs. Rothschild will give an impulse to the construction of railways through the agency of private enterprise. If local capital will come forward, so much the better. If not, it is to be hoped that European capital will be forthcoming.

91. I am unable as yet to say anything definite as to the conditions under which concessions may be made to private capitalists. Possibly those conditions may vary according to the exigencies of each particular case. It appears to me, however, that the Government may legitimately help in a variety of ways short of giving a guarantee. Government officers may make surveys and estimates, and supply all necessary information with a view to enabling private individuals to judge for themselves whether they care to invest their money in any particular scheme. The land on which the line is constructed may sometimes be given free of cost. Possibly, in some cases, grants of waste land in the vicinity of a new line may be given. On the other hand, certain conditions, to some of which I have already alluded, must be imposed, and it will be important only to give concessions to such persons as can afford good security that they have at their command a sufficient amount of capital to carry out the undertaking to a successful issue.

VI.—Ways and Means.—(See Appendix VII.)

92. The balance on March 31st 1881 is estimated at £12,800,000. **Ways and Means.** though so short a time has to elapse before the close of the year, I am obliged to put this estimate forward with reserve. The disturbance in the collection of Land Revenue, to which I have already alluded (paras. 40 and 73), renders it difficult to state with accuracy whether the amount now due will be paid before or after March 31st. Further, the estimate of £12,800,000 is largely affected by the distribution of the payment of Council bills at Calcutta between the last week of March and the first week of April. *Closing balance, March 31st 1881.*

93. Provision has been made in the Ways and Means Estimate for a loan of £3,000,000 to be raised in India in the course of the year. The amount of Secretary of State's bills which, it is estimated, will be presented for payment in the course of the year is £17,200,000 sterling. The estimates of the amount to be borrowed and to be supplied to the Home Treasury by bills in 1881-82 are the best that can now be made, but I state them with the usual reserve, viz., that they are— *Loan of £3,000,000*

“subject to modification as the year goes on, that the Government must not be understood to “pledge itself that the Secretary of State will raise by bills the exact amount stated, or that “the exact amount stated will be borrowed during the year, or that it will be borrowed in “India.”

94. The balance on March 31st 1882 is estimated at £10,000,000. In considering this estimate it is to be borne in mind that some heads of revenue will almost certainly yield more than the amount for which credit has been taken, and also that many of the heaviest additions to the expenditure—namely, the large grants for Public Works and for the reduction of debt—will not fall upon the Treasuries until late in the year, when we shall have passed the period of low balances. *Closing balance, March 31st 1882.*

95. It will be observed that there was a large increase of Savings Banks Deposits during the year 1880-81. This increase was due to the Government having raised the rate of interest from 3½ to 4½ per cent. and having also raised the limit of individual deposits. Part of these concessions have now been withdrawn as they were considered to have attracted a class of deposits for which Savings Banks were not intended. Large withdrawals are in consequence anticipated in 1881-82. On the other hand arrangements are being made to utilise the organisation of the Post Office with a view to giving increased facilities to depositors. *Savings Banks.*

Money-orders.

96. On January 1st 1880 the business of the Money-Order Department was transferred from the Civil Treasuries to the Post Office. The result of this change has been to increase the number of offices at which money-orders can be obtained and paid. The result is shown in the increase of the annual amount of money-orders from £1,200,000 to over £4,000,000.

VII.—Conclusion.

Conclusion.

97. I have now dwelt upon most of the leading features of our current finance. To have attempted a more detailed examination of the many questions which arise incidentally would have unduly lengthened this statement. I will conclude with some observations of a more general nature on the financial situation.

98. The facts and figures which I have given in this statement are sufficient to show that the first essential condition of sound finance exists in India. The revenue exceeds the expenditure. The actual financial condition of India is therefore prosperous. I am glad of an opportunity of expressing this opinion, because the recent failure in the War Estimates has tended to induce a belief that the present financial condition of India affords ground for alarm. This is not the case. When once we are relieved from the strain of war expenditure we need be under no serious anxiety in respect to our current finances. The difficulties with which we have to deal, considerable though they be, are different from those which obtained in the years immediately following the Mutiny. India is not in a state of chronic deficit. She can not only pay her way, but provide a large surplus of receipts over expenditure. The different branches of revenue show a fair degree of elasticity. During the last 12 years there has been a reduction of £3,558,000 in the net charge on account of Productive Public Works.

99. These facts are satisfactory and, if I may be allowed to say so, reflect credit on the past administration of Indian finance. Are we therefore justified in saying that the condition of Indian finance is thoroughly prosperous? I think not. However encouraging may be the aspect of the present, the possibilities of the future are at all events sufficiently grave to render severe thrift and economy a paramount necessity.

100. Our principal source of income is the Land Revenue, which is paid in silver, and either fixed in perpetuity or only subject to increase at long intervals. At the same time we owe a large sum annually in gold. The amount of the Secretary of State's bills has of late years been gradually increasing. In 1881-82 they will amount to £17,200,000 sterling. This amount includes many remittances which are in the nature of banking transactions; but when all reasonable deductions have been made, the amount which India must send home to meet her current wants is still very large. Obviously under such conditions one essential element of State finance—stability—must be to some extent wanting. We can never feel any certainty of the sum to which the item *Loss by Exchange* may not amount.

101. About £8,000,000 of our net revenue is derived from opium. It is true that whilst the revenue from opium has of late years been steadily increasing, it has been wisely decided to rely on it only to the extent of £6,500,000 net in framing the estimates. But I cannot, on this account, consider that the force of the arguments based upon the precarious nature of this revenue are diminished. £6,500,000 is about one-tenth of the gross revenue, and there will always be a tendency to discount the anticipated receipts above that amount. The degree of embarrassment which would be caused by the whole or partial loss of the opium revenue increases in the direct proportion of the sums which the Indian Treasury derives from this source.

102. Lastly, the pressure of the population upon the soil, which year by year increases in intensity, presents an economic difficulty of the first magnitude, with which, indeed, I doubt the capability of Government to cope by any direct means, but which renders it imperative upon us to reduce in every

possible way the pressure of taxation. India is a poor country, and the fact that the Government receives in the shape of taxes more than it spends should not blind us to the economic difficulties of the future. No one, for instance, can reflect on such facts as those recently published by an able young officer of the Civil Service (Mr. Irwin) in respect to Oudh without misgivings as to the future. A high authority on agricultural matters (Mr. Caird),—whose criticisms on Indian affairs I welcome, although I venture to think that further study might induce him to modify some of his views,—has also dwelt on the density of the population in certain parts of India. The Director General of Statistics has calculated that in Bengal there are 715 people to every square mile of cultivated land; in the North-Western Provinces and Oudh the proportion is 824; in Madras 627. These figures speak for themselves. The conclusions to be deduced from them are all the more serious if we reflect that every benevolent attempt made to mitigate the effects of famine and defective sanitation serves but to enhance the evils resulting from over-population.

103. I cannot now attempt any general disquisition upon the proper sphere of Government action in dealing with this and other economic problems which present themselves in India. I will merely observe that Government must beware lest it undertake the solution of difficulties beyond its control, and lest it interfere in matters where its action would be detrimental and would discourage a spontaneous and healthy development of national life. There are, however, two points to which I venture to think the attention of Government may, at the present moment, be usefully directed. The first is the reduction of military expenditure; the second, the encouragement of private enterprise.

104. A Commission, composed of high authorities, has pronounced the possibility of reducing the cost of the Army. I am alive to the difficulties which must be encountered in seeking to reduce Military Expenditure, and I deprecate any economies which can only be made at the expense of true efficiency. I recognise that so long as the Government was not free from the embarrassment caused by the Afghan war, it was impossible to take this matter seriously in hand. But I wish to express my opinion that, when once we are free from Afghan complications, the question of reducing Military Expenditure is of all others that which most seriously demands the attention of Government.

105. Some legitimate encouragement may be afforded to private enterprise without incurring the evils involved in affording anything in the nature of protection to Native industries. It is undesirable that the Government should give subventions to commercial undertakings. Further, the Government must supply its own wants by buying in the cheapest market, wherever that may be. When I speak, therefore, of the encouragement to be given to private enterprise, I mean rather that there should be the absence of discouragement necessarily caused if the State creates artificial monopolies in its own favour, or takes any action which practically causes the Government to compete with private trade. I have already dwelt on the case of Railways. In other spheres Government may legitimately afford some direct encouragement to private trade. Thus, it may be careful to supply its own wants from *bonâ fide* local sources whenever they can be supplied as cheaply as by obtaining goods from Europe. A good deal has already been done in this respect, and it is to be hoped that, as private enterprise is brought to bear more and more on the development of local manufactures, we shall be able to reduce still further the amount which we have to remit to Europe for stores.

106. Further, Government may advantageously continue to act in the direction pointed out by the late Lord Mayo as the pioneer of commerce by facilitating the establishment of direct relations between the commercial classes of India and foreign countries. Thus, two officers of Government (Mr. Buck and Mr. O'Connor) have been of late usefully employed in aiding to bring to the notice of the mercantile community of Melbourne the advantages to be derived from entering into closer commercial relations with India. I am glad to learn that the Syndicate, which was recently formed of persons interested in the tea trade, is about to send a mission to America similar to that which was despatched to Australia. The Government has intimated its willingness to assist in the matter. I may mention that Mr. Buck has expressed an opinion that if the

cotton manufacturers of Bombay and the jute manufacturers of Calcutta were to follow the example of the tea merchants in taking some steps to introduce and extend their manufactures in the colonies, they might effect a considerable increase in their exports.

107. Measures such as those to which I have alluded above come within the legitimate sphere of Government action. I do not say that such palliatives will suffice to meet the economic and financial difficulties with which, possibly, the future may be beset, or that I have alluded to nearly all the remedies which it is within the range of possibility to apply to them; but if we recognise the existence of those difficulties,—if the measures we adopt are of a practical nature and dictated by sound principle,—and if at the same time we are careful to remove any restrictions upon that free expression of opinion which helps so materially to bring to light the nature of the evils to be remedied,—

• Debate in the House of Commons,
June 12th 1879.

we may at least face the future in the full conviction that we have done our duty. Above all things we should bear in mind the words of Mr. Gladstone,* which represent my own views in language so far more eloquent than any I can find, that I cannot terminate this statement better than by quoting them. Painful impressions, he said—

“have been received in this country that the economic and material condition of the people of India is not what we should desire. No doubt, exaggerated statements have obtained currency, and salutary corrections have been applied; but I often think we are too apt to fall back on the abstract and theoretical splendour of the possession of the Indian Empire, and we do not sufficiently recollect that the administration of that Empire, in the final judgment of history, will bring no advantage or glory to us, except in the exact and precise proportion that that administration confers benefit upon that Empire and renders India prosperous and happy.”

MILITARY, INDIA OFFICE,
No. 53. London, the 17th February, 1881.

To His Excellency the Most Hon'ble the Governor-General of India in Council.

MY LORD MARQUIS,

Para. 1. I have considered in Council your despatch, No. 520, dated the 29th December,

1880, forwarding your General Order, No. 693, dated the 24th December last, publishing for general information the despatch relating to the march of the division under Major-General Phayre, C.B., for the relief of the garrison at Kandahar in August and September last.

2. I recognize the energy displayed by General Phayre in equipping and organizing the force under his command, and I sympathize with the officers and men composing the Bombay Division in their disappointment at not arriving in time to share in the honour of relieving the garrison.
3. The exertions put forth by the Political Department and the military staff, under

exceptional and very trying circumstances, were laborious and incessant, and are deserving of my acknowledgments, while the cheerfulness with which long marches were made and hardship and exposure were borne by the officers, non-commissioned officers, and men, European and Native, entitles them to my thanks.

4. I desire that these observations may be made known to the Army.

I have, &c.,

Foreign Office, February 26, 1881.

THE following Despatch has been received from Her Majesty's Chargé d'Affaires at Constantinople, on the subject of the Passport Regulations in force in the Ottoman Dominions:—

Constantinople,

MY LORD,

February 4, 1881.

I HAVE the honour to enclose copy of a note I have received from the Porte on the subject of the strict observance of the Passport Regulations in force in Turkey.

I have, &c.,

F. B. ST. JOHN.

The Earl Granville, K.G.,

&c., &c., &c.

(Note Verbale.)

Sublime Porte, Le 3 Février, 1881.

DANS le but d'obvier aux nombreux inconvénients qui résultent de la non-application rigoureuse du règlement sur les passeports, la S. Porte a décidé de prendre des mesures propres à mettre fin aux contraventions de plus en plus fréquentes qui se produisent.

Il importe de combiner l'action des Autorités Impériales avec le concours des diverses compagnies de navigation à vapeur qui embarquent dans les ports Ottomans des passagers à destination de l'étranger.

Le ministère impérial vient en conséquence prier l'Ambassade de Sa Majesté Britannique de donner à qui de droit les ordres nécessaires pour que les capitaines des bateaux anglais desservant les échelles de l'empire n'aient pas à embarquer à l'avenir les gens non-munis de passeports, ni ceux qui ni les auront pas fait viser par le consulat du pays où ils se rendent.

A l'Ambassade de S. M. Britannique.

(Translation.)

In order to obviate the very great inconvenience arising from the fact that the regulations respecting passports are not rigorously enforced, the S. Porte has decided to take measures calculated to put an end to irregularities which are becoming more and more frequent.

It is important that the Imperial authorities should act in concert with the various steam navigation companies which receive on board their ships in Ottoman ports passengers bound for foreign countries.

The Imperial Cabinet requests therefore the Embassy of Her Britannic Majesty to be so good as to give categorical orders in the proper quarter that the captains of the English vessels calling at the ports of the empire shall not receive on board any passenger who is not provided with a passport or who has not obtained the visa of the consul of the country whither he is going.

To Her Britannic Majesty's Embassy.

WHEREAS by the Extradition Acts of 1870 and 1873, it was amongst other things enacted, that where an arrangement has been made with any foreign State with respect to the surrender to such State of any fugitive criminals, Her Majesty may, by Order in Council, direct that the said Acts shall apply in the case of such foreign State; and that Her Majesty may, by the same or any subsequent Order, limit the operation of the Order, and restrict the same to fugitive criminals who are in or suspected of being in the part of Her Majesty's dominions specified in the Order, and render the operation thereof subject to such conditions, exceptions, and qualifications as may be deemed expedient:

And whereas a Treaty was concluded on the twenty-fourth day of November, one thousand eight hundred and eighty, between Her Majesty and the King of the Netherlands, Grand Duke of Luxemburg, for the Mutual Extradition of Fugitive Criminals, which Treaty is in the terms following:—

Sa Majesté la Reine du Royaume-Uni de la Grande Bretagne et d'Irlande, et Sa Majesté le Roi des Pays-Bas, Grand-Duc de Luxembourg, ayant jugé opportun, afin de mieux assurer l'administration de la justice et la répression des crimes sur les territoires de Sa Majesté Britannique et dans le Grand-Duché de Luxembourg, de se livrer réciproquement, dans certaines circonstances, les individus accusés ou condamnés du chef des crimes ci-après énumérés, et qui seraient en fuite, ont nommé pour leurs Plénipotentiaires chargés de conclure un Traité à cet effet, savoir:

The extradition is also to take place for participation in any of the aforesaid crimes, as an accessory before or after the fact, provided such participation be punishable by the laws of both Contracting Parties.

ARTICLE III.

The extradition shall not take place if the person claimed on the part of the Government of the United Kingdom, or the person claimed on the part of the Government of the Grand Duchy of Luxembourg, has already been tried and discharged or punished, or is still under trial, in the Grand Duchy or in the United Kingdom, respectively, for the crime for which his extradition is demanded.

If the person claimed on the part of the Government of the United Kingdom, or if the person claimed on the part of the Government of the Grand Duchy of Luxembourg, should be under examination for any other crime in the Grand Duchy or in the United Kingdom, respectively, his extradition shall be deferred until the conclusion of the trial, and the full execution of any punishment awarded to him.

ARTICLE IV.

The extradition shall not take place if, subsequently to the commission of the crime, or the institution of the penal prosecution, or the conviction thereon, exemption from prosecution or punishment has been acquired by lapse of time, according to the laws of the State applied to.

ARTICLE V.

A fugitive criminal shall not be surrendered if the offence in respect of which his surrender is demanded is one of a political character, or if he prove that the requisition for his surrender has in fact been made with a view to try or to punish him for an offence of a political character.

ARTICLE VI.

A person surrendered can in no case be kept in prison, or be brought to trial in the State to which the surrender has been made, for any other crime or on account of any other matters than those for which the extradition shall have taken place, until

15. Fraude par un administrateur, banquier, agent, procureur, tuteur, ou curateur, directeur, membre, ou fonctionnaire d'une société quelconque, pour autant que le fait est puni par les lois en vigueur.

16. Escroquerie d'argent, de valeurs ou de marchandises sous de faux prétextes; recel d'argent, de valeurs, ou d'autres propriétés, avec connaissance de leur provenance illégitime.

(b) Faux, contrefaçon ou altération, ou mise en circulation de ce qui falsifié, contrefait, ou altéré.

(c) Fabrication avec connaissance de cause, en dehors de l'autorisation légale, d'un instrument, outil, ou engin destiné à la contrefaçon de la monnaie du pays.

18. Crimes contre les lois sur les banqueroutes.

19. Tout acte commis avec intention de mettre en danger la vie de personnes se trouvant dans un train de chemin de fer.

20. Atteinte à la propriété, avec mauvaise intention, pour autant que le fait est punissable par les lois.

L'extradition aura également lieu pour complicité à un des crimes ci-dessus mentionnés, que la complicité se soit produite avant ou après la perpétration, pourvu que la complicité soit punissable par les lois des deux Parties Contractantes.

ARTICLE III.

L'extradition ne sera pas accordée si l'individu poursuivi par le Gouvernement du Royaume-Uni ou par le Gouvernement du Grand-Duché de Luxembourg, a déjà été dans le Grand-Duché ou dans le Royaume-Uni l'objet d'une instruction ou d'une ordonnance de non-lieu pour le crime pour lequel l'extradition est demandée, ou s'il est encore en état de prévention, ou qu'il ait déjà été puni pour ce fait.

Si l'individu poursuivi par le Gouvernement du Royaume-Uni ou par le Gouvernement du Grand-Duché de Luxembourg est en état de prévention dans le Grand-Duché ou dans le Royaume-Uni pour un autre crime, son extradition sera différée jusqu'à la conclusion du procès et l'exécution complète de la peine lui infligée.

ARTICLE IV.

L'extradition n'aura pas lieu si postérieurement à la perpétration du crime, aux poursuites ou à la condamnation, la prescription de l'action ou de la peine est acquise d'après les lois du pays où le prévenu s'est réfugié.

ARTICLE V.

Aucun criminel fugitif ne sera extradé, si le délit pour lequel l'extradition est demandée, est considéré comme un délit politique, ou si l'individu prouve que la demande d'extradition a été faite en réalité dans le but de la poursuivre ou de le punir pour un délit d'un caractère politique.

ARTICLE VI.

L'individu qui aura été livré ne pourra, dans le pays auquel l'extradition a été accordée, être tenu en état d'arrestation ou poursuivi pour aucune infraction ou fait autre que ceux ayant motivé l'extradition, jusqu'à ce qu'il ait été rendu ou qu'il

he has been restored or has had the opportunity of returning to the country from whence he was surrendered.

The period of one month shall be considered as the limit of the period during which the prisoner may, with the view of securing the benefits of this Article, return to the country from whence he was surrendered.

This stipulation does not apply to crimes committed after the extradition.

ARTICLE VII.

The requisition for extradition must always be made by the way of diplomacy, and to wit, in the Grand Duchy of Luxemburg by the British Minister in Luxemburg, and in the United Kingdom to the Secretary of State for Foreign Affairs by the Foreign Minister in Great Britain, who, for the purposes of this Treaty, is recognized by Her Majesty as a Diplomatic Representative of the Grand Duchy of Luxemburg.

The requisition for the extradition of an accused person must be accompanied by a warrant of arrest issued by the competent authority of the State requiring the extradition, and by such evidence as, according to the laws of the place where the accused is found, would justify his arrest if the crime had been committed there.

If the requisition relates to a person already convicted, it must be accompanied by the sentence of condemnation passed against the convicted person by the competent Court of the State that makes the requisition for extradition.

A requisition for extradition cannot be founded on sentences passed in contumaciam.

ARTICLE VIII.

If the requisition for extradition be in accordance with the foregoing stipulations, the competent authorities of the State applied to shall proceed to the arrest of the fugitive.

The prisoner is then to be brought before a competent Magistrate, who is to examine him and to conduct the preliminary investigation of the case, according to the laws of the country in which he is found.

ARTICLE IX.

The extradition shall not take place before the expiration of fifteen days from the date of the fugitive criminal's committal to prison to await his surrender, and then only if the evidence produced in due time be found sufficient according to the laws of the State applied to.

ARTICLE X.

A fugitive criminal may, however, be apprehended under a warrant issued by any Police Magistrate, Justice of the Peace or other competent authority in either country, on such information or complaint, and such evidence, or after such proceedings as would, in the opinion of the person issuing the warrant, justify the issue of a warrant, if the crime had been committed or the prisoner convicted, in that part of the dominions of the two Contracting Parties in which he exercises jurisdiction: Provided however that, in the United Kingdom, the accused shall, in such cases, be sent as speedily as possible before a Police Magistrate in London. He shall be discharged, as well in the United Kingdom as in the Grand Duchy of Luxemburg, if within fourteen days a requisition shall not have been made for his surrender by the Diplomatic Agent of his country.

ait eu l'occasion de retourner au pays qui l'a extradé.

Le délai d'un mois sera considéré comme la limite du temps pendant lequel le prisonnier, afin de s'assurer les bienfaits de cet Article, peut retourner au pays dont il a été extradé.

Cette stipulation n'est pas applicable aux crimes commis après l'extradition.

ARTICLE VII.

L'extradition sera toujours demandée par la voie diplomatique, savoir: dans le Grand-Duché de Luxemburg, par l'Envoyé Britannique, et dans le Royaume-Uni au Secrétaire d'Etat pour les Affaires Etrangères, par le Ministre Etranger dans la Grande-Bretagne lequel sera à cette fin, reconnu par Sa Majesté la Reine comme le Représentant Diplomatique du Grand-Duché de Luxemburg.

La demande d'extradition d'un prévenu devra, être accompagnée d'un mandat d'arrêt décerné par l'autorité compétente du pays requérant, et des preuves qui, d'après les lois de l'endroit où le prévenu a été trouvé justifieraient son arrestation, si l'acte punissable y avait été commis.

Si la demande d'extradition concerne une personne déjà condamnée, on doit produire l'arrêt de condamnation qui a été rendu par le Tribunal compétent de l'Etat requérant.

La demande d'extradition ne peut se baser sur des arrêts qui ont été rendus par contumace.

ARTICLE VIII.

Si la demande d'extradition est en accord avec les stipulations précédentes, les autorités compétentes de l'Etat auquel la demande d'extradition a été faite, procéderont à l'arrestation du fugitif.

Le prisonnier sera ensuite amené devant un magistrat compétent, qui devra l'examiner et conduire les investigations préliminaires d'après les lois du pays où il est trouvé.

ARTICLE IX.

L'extradition n'aura pas lieu avant l'expiration de quinze jours, à dater de l'arrestation du criminel fugitif attendant son extradition, et elle n'aura lieu que sur la production en temps utile de pièces trouvées suffisantes d'après les lois de l'Etat requis.

ARTICLE X.

Un malfaiteur fugitif peut néanmoins être arrêté dans les deux pays en vertu d'un mandat d'arrêt décerné par un magistrat ou fonctionnaire de police, par un Juge de Paix ou telle autre autorité compétente, sur une dénonciation ou plainte, et sur les preuves, ou d'après une procédure établissant que, dans l'opinion du fonctionnaire qui décerne le mandat d'arrêt, cette mesure serait justifiée, si le crime avait été commis ou si le prisonnier avait été condamné dans la partie des territoires des deux Parties Contractantes où le fonctionnaire exerce la juridiction. Il est stipulé toutefois que, dans le Royaume-Uni, le prévenu devra, en pareil cas, être aussi promptement que possible conduit devant un magistrat de police à Londres. Il devra être mis en liberté dans le Royaume-Uni et dans le Grand-Duché de Luxemburg si, dans l'espace de quatorze jours, une demande d'extradition n'est pas faite par l'Agent Diplomatique de son pays.

ARTICLE XI.

If, in any criminal matter, pending in any Court or Tribunal of one of the two countries, it is thought desirable to take the evidence of any witness in the other, such evidence may be taken by the judicial authorities in accordance with the laws in force on this subject in the country where the witness may be.

ARTICLE XII.

All articles seized which were in the possession of the person to be surrendered at the time of his apprehension, shall, if the competent authority of the State applied to for the extradition has ordered the delivery thereof, be given up when the extradition takes place; and the said delivery shall extend not merely to the stolen articles, but to everything that may serve as a proof of the crime.

ARTICLE XIII.

The High Contracting Parties renounce any claim for the reimbursement of the expenses incurred by them in the arrest and maintenance of the person to be surrendered, and his conveyance till placed on board ship, as well as for the reimbursement of the expenses incurred in taking the evidence of any witness in consequence of Article XI, and in giving up and returning seized articles. They reciprocally agree to bear such expenses themselves.

ARTICLE XIV.

The stipulations of the present Treaty shall be applicable to the Colonies and foreign possessions of Her Britannic Majesty.

The requisition for the surrender of a fugitive criminal who has taken refuge in any of such Colonies or foreign possessions shall be made to the Governor or to the supreme authority of such Colony or possession through the Luxemburg Consul, or, in case there should be no Luxemburg Consul, through the Consular Agent of another State charged for the occasion with Luxemburg interests in the Colony or possession in question, and recognized by such Governor or supreme authority as such.

The Governor or supreme authority abovementioned shall decide with regard to such requisitions as nearly as possible in accordance with the provisions of the present Treaty. He will, however, be at liberty either to consent to the extradition or report the case to his Government.

Her Britannic Majesty shall, however, be at liberty to make special arrangements in the British Colonies and foreign possessions for the surrender of such individuals as shall have committed in the Grand Duchy of Luxemburg any of the crimes hereinafore mentioned, who may take refuge within such Colonies and foreign possessions, on the basis, as nearly as they may be, of the provisions of the present Treaty.

The requisition for the surrender of a fugitive criminal from any Colony or foreign possession of Her Britannic Majesty shall be governed by the rules laid down in the preceding Articles of the present Treaty.

ARTICLE XV.

The present Treaty shall come into force ten days after its publication in conformity with the forms prescribed by the laws of the High Contracting Parties. It may be terminated by either of the High Contracting Parties, but shall remain in force for six months after notice has been given for its termination.

ARTICLE XI.

Si, dans une matière criminelle pendante devant une Cour ou un Tribunal de l'un des deux pays, il est jugé désirable d'entendre dans l'autre les dépositions d'un témoin, pareilles dépositions peuvent être reçues par les autorités judiciaires d'après les lois en vigueur sur la matière dans le pays où le témoin se trouve.

ARTICLE XII.

Les objets saisis en la possession de l'individu au moment de son arrestation seront, si l'autorité compétente de l'Etat requis en a ordonné la remise, livrés lorsque l'extradition aura lieu, et cette remise ne comprendra pas seulement les objets enlevés, mais encore tout ce qui peut servir de pièce à conviction.

ARTICLE XIII.

Les Hautes Parties Contractantes renoncent à toute réclamation pour le remboursement des frais qui leur ont été occasionnés par l'arrestation, l'entretien, et le transport de l'individu jusqu'au bord d'un navire, ainsi que de ceux occasionnés par la déposition d'un témoin, en conséquence de l'Article XI, et par la remise et la restitution des objets saisis. Elles consentent à supporter réciproquement les dits frais.

ARTICLE XIV.

Les stipulations du présent Traité seront applicables aux Colonies et possessions étrangères de Sa Majesté Britannique.

La demande d'extradition d'un criminel qui s'est réfugié dans une de ces Colonies ou Possessions étrangères, sera faite au Gouverneur ou à l'autorité suprême de cette Colonie ou Possession par le Consul Luxembourgeois, ou, à défaut d'un Consul Luxembourgeois, par l'Agent Consulaire d'un autre Etat chargé pour l'occasion des intérêts Luxembourgeois dans la Colonie ou Possession en question, et reconnu comme tel par le Gouverneur ou l'autorité suprême.

Le Gouverneur, ou l'autorité suprême, mentionné ci-dessus, décidera à l'égard de telles demandes, en se conformant autant que possible aux dispositions du présent Traité. Il sera néanmoins libre d'accorder l'extradition ou de soumettre le cas à son Gouvernement.

Sa Majesté Britannique se réserve cependant le droit de faire, en se conformant autant que possible aux stipulations du présent Traité, des arrangements spéciaux dans les Colonies ou Possessions étrangères pour l'extradition d'individus qui ont commis dans le Grand-Duché de Luxembourg un des crimes prévus dans le Traité, et qui auraient trouvé un refuge dans ces Colonies ou Possessions étrangères.

Les demandes concernant l'extradition de criminels qui se sont échappés d'une des Colonies ou Possessions étrangères de Sa Majesté Britannique seront traitées suivant les dispositions des Articles précédents du présent Traité.

ARTICLE XV.

Le présent Traité entrera en vigueur dix jours après sa publication dans les formes prescrites par la législation des Hautes Parties Contractantes. Le Traité peut être dénoncé par chacune des Parties Contractantes; il demeurera toutefois en vigueur encore six mois après qu'il aura été dénoncé.

The Treaty shall be ratified, and the ratifications shall be exchanged at Brussels as soon as possible.

In witness whereof the respective Plenipotentiaries have signed the same, and have affixed thereto the seal of their arms.

Done at Luxemburg, the twenty-fourth day of November, in the year of our Lord one thousand eight hundred and eighty.

(L.S.) W. STUART.

(L.S.) F. DE BLOCHAUSEN.

Le Traité sera ratifié, et les ratifications en seront échangées à Bruxelles, le plus tôt que faire se peut.

En foi de quoi, les Plénipotentiaires respectifs ont signé le présent Traité, et y ont apposé le cachet de leurs armes.

No. 461.

Read again—

Resolution No. 3528, dated 27th October 1880, publishing the Rules for District and Presidency Savings Banks.

RESOLUTION.—The following revised Rules for Government Savings Banks are published, all previous Rules being revoked:—

I.—In these Rules—

“Depositor,” “Deposit,” and “Secretary” bear the meaning which they bear in *The Government Savings Bank Act*, 1873.

“Account” means the account of a Depositor in a Government Savings Bank.

“Balance” means the balance at credit of an account.

II.—Any person may become a Depositor on his own behalf, or on behalf of any other named person dependent upon him. Deposits may also be made by the Managers of Benevolent or other Public Associations, or by Public Officers, of money deposited with them *ex-officio* as security for the discharge of any public duty or for the fidelity of any Public Officer, or for the accomplishment of any public object.

III.—Subject to the provisions of these Rules, the Government of India guarantees the repayment of every deposit with interest.

IV.—Without the sanction of the Comptroller General, no Account will be opened for less than One Rupee, and no person may deposit more than Five Hundred Rupees, in all, between the 1st of April in any year and the 31st March of the following year.

V.—Interest will not be allowed upon a smaller Balance than Rs. 1½ or upon the excess in any balance over the highest multiple of Rs. 1½.

VI.—Interest will be allowed for each Calendar Month upon the minimum Balance of the Account between the close of the Fourth Day and the end of the Month.

VII.—Till further notice, interest will be allowed upon deposits at the rate of one pie a Month for every Rs. 1-10-8, which is equal to one anna for every Rs. 20, being at the rate of Rs. 3½ per centum per annum. Without the sanction of the Comptroller General, no higher Monthly Interest will be allowed upon any Balance than Rs. 9-6; being the interest upon Rs. 3,000.

In calculating interest, one anna will be taken as the interest for one month on every twenty rupees of the amount entitled to bear interest, and for broken sums below twenty rupees the following table will be used:—

PRINCIPAL.			INTEREST.		PRINCIPAL.			INTEREST.	
Rs.	A.	P.	A. P.		Rs.	A.	P.	A. P.	
1	10	8	0	1	11	10	8	0	7
3	5	4	0	3	13	5	4	0	8
5	0	0	0	5	15	0	0	0	9
6	10	8	0	6	16	10	8	0	10
8	5	4	0	8	18	5	4	0	11
10	0	0	0	10	20	0	0	1	0

Example:—Required interest for one month on Rs. 134-6-10.

Rs. A. P.			Rs. A. P.		
Interest on	...	120 0 0	0 6 0
"	...	14 6 10	0 0 8
TOTAL	...	134 6 10	TOTAL	...	0 6 8

VIII.—Every Account will be made up on the 31st March, and the interest then due, calculated under these Rules, added to the Balance upon which future interest will accrue. If an Account is closed on any other date, interest due to the end of the preceding Calendar Month will be paid to the Depositor: but a Depositor who closes an Account should not, ordinarily, be permitted immediately to reopen it, except on payment of a fine varying at the discretion of the Secretary from One to Ten Rupees.

IX.—Whenever a Depositor changes his residence, an Account may be transferred, free of charge, to the Government Savings Bank in the District to which the Depositor is removing. Without the special permission of the Comptroller, an Account may not be otherwise transferred from one Bank to another.

X.—A Deposit Book will be supplied to each Depositor in which the Secretary, or, if the Savings Bank is at a Public Treasury, the Treasury Officer, will acknowledge every Deposit. The personal attendance of a Depositor is not required; but no Deposit will be received, or payment made, without the Depositor's Deposit Book, and the Government will not be responsible for any Deposit the receipt of which is not acknowledged in a Deposit Book. The interest, due to date, will be entered in each Deposit Book the first time that it is produced after the 31st March. The first Deposit Book will be supplied free of charge; but, if a Deposit Book is lost or injured, or if a Closed Account is reopened, One Rupee will be charged for a new book.

XI.—Without special permission, a Depositor may not draw upon his Account more than once in thirty days, or open more than one Account in his own name or in the name of any member of his family or for his own benefit or the benefit of any member of his family. The Comptroller General must take precautions to prevent any transgression of this Rule, and, in particular, any employment of an Account as an ordinary Drawing Account. This Rule is not meant to prevent any one from opening more than one *ex-officio* or public Account.

XII.—The Secretary may refuse to open any Account or may close any Account, for any sufficient reason, as, for example, because he thinks that the Account is likely to be used, or is being used, contrary to the object with which Government Savings Banks are established, namely, the encouragement of saving.

XIII.—When the Secretary thinks it proper to close any Account, he shall give notice, in writing to the Depositor, of such closure. After the date of such notice, no Deposit shall be accepted on the Account so closed, and no interest shall be allowed upon the Balance of the Closed Account after the end of the Calendar Month then current.

XIV.—These Rules apply as well to Accounts opened before as after their publication. Save that upon Accounts opened before the date of this Resolution, interest will be calculated, up to 31st May 1881, at the rate of $4\frac{1}{2}$ per centum per annum, according to the rules prescribed in Nos. V, VI and VII of the Resolution No. 3528 of 27th October 1880.

XV.—(1) Any person, whether a Depositor or not, who desires to purchase Government Securities, may make written application for the purpose at a Savings Bank. He will be required to tender in cash the amount necessary to complete the purchase, unless he has a sufficient deposit at his credit in the local Savings Bank. The purchase will be made through the Comptroller General.

(2) The paper purchased will be of the 4 per Cent. Loans, unless $4\frac{1}{2}$ per cent. paper is specially applied for.

(3) The investor may also specially apply that the paper remain in the custody of the Comptroller General, and that the interest be remitted as drawn to the local Savings Bank, for delivery to him. In this case the Comptroller General will, if necessary, transfer the paper to the 4 per cent. Loan of 1865, and will remit the interest as applied for. The investor may at any time apply through the local Savings Bank for the delivery to him of paper thus held by the Comptroller General. If application is not made under this clause, the paper purchased by the Comptroller General will be enfaced for payment of interest at the local Treasury, and forwarded to the Savings Bank for delivery to the investor.

(4) An investor under these Rules may at any time apply in the same way for the sale of paper purchased through the Savings Bank, whether held by himself, or held for him by the Comptroller General.

(5) These arrangements are intended only for persons of moderate income, who belong to a class who do not ordinarily have transactions with Bankers, and the advantage of them must be refused, both by the Savings Bank, and if necessary by the Comptroller General, if the applicant is not within this definition, except in the case of a Government servant purchasing Government paper, in consequence of an order requiring him to give security.

(6) In the case of applications made at Savings Banks at Treasuries in the interior of the Madras and Bombay Presidencies, the duties here laid upon the Comptroller General will be performed by the Accountants General of Madras and Bombay respectively. And in the case of applications made at the Presidency Banks in the Towns of Calcutta, Madras and Bombay, they will be performed by the Secretaries of those Banks, in the capacity of Secretaries of the Presidency Savings Banks.

(7) The following fees will be charged :—

On purchases : 4 annas per cent.

On realisation and remittance of interest : 4 annas per cent.

On delivery out of custody : 4 annas per cent., unless the application for delivery is made within a year of the purchase.

On sales : 4 annas per cent., and any actual outlay upon brokerage.

These fees may be appropriated by the Presidency Banks, in the case of applications made in the Towns of Calcutta, Madras and Bombay, and complied with by the Secretaries of the Banks.

XVI.—The Governor General in Council reserves the right to alter or add to these Rules at any time.

XVII.—A copy of the Government Savings Banks Act, 1873, and of these Rules, shall be printed in each Deposit Book delivered after this date, and the signature, or, if he cannot write, mark, of the Depositor obtained to the annexed declaration before any deposit is accepted from him.

XVIII.—These Rules shall come into force from the 1st June 1881.

Declaration to be recorded in accordance with Rule XVII.

I acknowledge that I have read these Rules (or, if he cannot read, that these Rules have been read to me).

I.—The commander of every vessel, including buggalows or other native craft, arriving from the Persian Gulf, shall, before entering the harbour, indicate by signal the port from which such vessel has come.

II.—Such commander shall not, except as hereinafter provided, allow any communication either with the pilot boat, except orally, or with the shore, or with any other vessel or boat in the harbour.

III.—Immediately on any such arrival being signalled, the Health Officer of the Port shall go alongside the vessel and ascertain, by

enquiry from the commander, whether any person on board is suffering, or has during the voyage suffered, from plague; and if the Health Officer is satisfied by such enquiry that no person on board is suffering, or during the voyage has suffered, from plague, he shall direct the commander to take the vessel to the quarantine anchorage, duly appointed and notified in that behalf by the Resident, there to remain for a period of seven days from the date of arrival in the harbour. The Health Officer shall also direct the commander to prohibit, during the period for which the vessel remains at the quarantine anchorage as aforesaid, all communication, except such as is hereinafter provided for, between such vessel and the shore, or other vessels and boats in the harbour.

IV.—If the Health Officer shall have reason to believe, at the time when the vessel arrives in the harbour, that any person on board is suffering, or during the voyage has suffered, from plague, he shall direct the commander to take the vessel to the quarantine anchorage as aforesaid, and there to remain for a period of fifteen days from the day of arrival in the harbour, and shall further direct that, during such fifteen days, intercourse between the said vessel and the shore, or other vessels and boats in the harbour, shall be prohibited as provided in Rule III.

V.—If during the period a vessel is at the quarantine anchorage aforesaid any case or cases of plague should occur on board, the said vessel shall remain in quarantine for a period of fifteen days from the date of the last case occurring, and be subject to all the prohibitions provided for in Rules III and IV.

VI.—When any vessel has been placed in quarantine as aforesaid, the Health Officer may direct the removal of so many of the passengers and crew as may not be suffering from illness, and whose services may not be required on board the vessel to such particular spots as may from time to time be selected by the Resident as places of quarantine, there to remain for a period of seven days, or, if the vessel has been placed in quarantine for fifteen days, for a period of fifteen days. If a case of plague occurs among such passengers and crew during any such period, they shall remain in a place of quarantine for a period of fifteen days from the date of the occurrence of the last case of such illness.

VII.—Any mails or cargo which may be brought by any vessel so arriving shall be landed under such precautions as the Health Officer may deem necessary to prevent the spread of the disease.

VIII.—It will be the duty of the Port Officer to facilitate the conveyance to all vessels in quarantine of such supplies of provisions, stores and other articles as may be required by those on board. Such supplies will be placed on the boats of the vessels in quarantine, to be subsequently removed by members of their crews.

IX.—All vessels arriving at Aden, which may have communicated with vessels coming from the Persian Gulf, shall be subjected to the same quarantine as vessels arriving at Aden from the Persian Gulf.

FINANCIAL,

INDIA OFFICE,

No. 125.

London, 7th April 1881.

To His Excellency the Most Honourable the Governor General of India in Council.

MY LORD MARQUIS,

PARA. 1. In my Despatch of the 23rd of September 1880, No. 317, I informed Your Excellency that Her Majesty's Government had determined that a substantial contribution to the expenses incurred in the Afghan war should be made by the Imperial Treasury.

2. I have now to inform your Government that, on the 16th of March, the Chancellor of the Exchequer announced to the House of Commons that it had been determined to remit the repayment by the Indian Government of the loan of 2,000,000*l.* advanced in 1879, and to make a further grant of 3,000,000*l.*, in six annual instalments, the first being made in the current year, 1880-81.

3. The Bill necessary to legalise the remission of the Advance Loan was not passed by the 31st of March; but I have not thought it necessary, in the revision of the Estimates of the Home Treasury, to include in the expenditure of 1880-81 the repayment of the sum of 290,000*l.*, which was due this year.

4. The proposals of Her Majesty's Government have been accepted by the House of Commons, after it had been explained that the whole of the five millions sterling will be devoted to the repayment of debt in England. Of this amount, two millions will be absorbed in cancelling the Advance Loan, and the instalment or instalments received by the 1st of November next will be used to repay the bonds falling due on that date.

5. Inasmuch as the whole of the charges of the war have been, or will be, brought to account as Expenditure, it is necessary to bring to account as revenue the amount of the contribution by Her Majesty's Government. Strictly, it appears to me that the several sums should be credited as revenue from time to time when received; but, considering the intention of Her Majesty's Government, in making the grant, to relieve the finances of India of the heavy burden now falling on them, it appears to me that the spirit of the proposal will be more fully met if the whole sum is now brought to account as revenue, and the portion unpaid is entered under Debt as an amount recoverable from Her Majesty's Government in future years, in aid of the expense of the Afghan war. The subsequent receipts will then be credited under the head of Debt, without interfering with the surplus or deficit of the year.

6. Although it is impossible at present to foresee the exact amount of war expenditure which will be incurred in the year 1881-82, yet it appears to me that, for the purpose of the Estimates, the best plan will be to bring to account as revenue in 1881-82 a sum equal to the estimated expenditure on war in that year, namely, 2,000,000*l.*, as stated in your telegram of the 5th

of March. In that case, by crediting as revenue in the estimates of 1880-81 a sum of 3,000,000*l.*, the whole grant from Her Majesty's Government will have been set off against the expenditure of the operations now about to be brought to a close, in the manner best calculated to eliminate from the Accounts of 1881-82 and subsequent years all disturbance arising from that expenditure.

7.* With this view, I addressed to Your Excellency on the 16th of March

the following telegram:—

"Parliament accepts proposed war contribution, namely, remitting Advance Loan, and payment of 3,000,000*l.* in six

annual instalments, all devoted to reduction of debt in England. You may credit Revenue with 5,000,000*l.* in 1880-81 and 1881-82 in proportions most convenient. To avoid complicating future accounts with war transactions, I suggest in 1881-82 amount equal to estimated war expenditure of that year, say two millions, and the difference, say three millions, in 1880-81. After 1881-82 all receipts will be under Debt."

MEDICAL DEPARTMENT.

No. 279.—His Excellency the Viceroy and Governor General in Council is pleased to direct the publication of the following despatch from the Right Hon'ble the Secretary of State for India:—

MILITARY, INDIA OFFICE,
No. 112. London, 14th April 1881.

To His Excellency the Most Honourable the Governor General of India in Council.

MY LORD MARQUIS,

PARA. 1. I have given very careful consideration to the proposals for a revised scale of pensions for the Indian Medical Service contained in your Financial letter of the 12th October 1880, No. 335, and, on a full review of all the circumstances, I have determined to sanction, with some slight exceptions, the proposals you have made.

2. I am unable, however, to allow longer periods of leave of absence to count as service for pension than those at present admitted; and I do not consider it would be expedient to give higher rates of pensions to medical officers of 20 and 26 years' service who retire on account of wounds or ill health contracted in the Service, than are granted

to officers who, after a similar period of service, retire in ordinary course.

3. It has not been usual in any branch of the Service to give higher pensions to officers entitled to pension merely because they retired on account of wounds or ill health, and I see objections to altering the system in the manner proposed. Officers who break down in the Service before they are entitled to pension receive the half pay of their relative rank, and officers so severely wounded as to entail the loss of a limb receive the wound pension of their relative rank in addition to pay or pension, and this appears to me to be sufficient.

4. I also consider that the third scale of pension may properly be given after 25 years' service instead of after 26 years.

5. In accordance with these views, therefore, the following will be the scale of pensions for the Indian Medical Service, with effect from the 1st January 1881:—

After 17 years' service, including 1½ years' leave and furlough, 292½.

After 20 years' service, including two years' leave and furlough, 365½.

After 25 years' service, including three years' leave and furlough, 500½.

After 30 years' service, including four years' leave and furlough, 700½.

6. Those officers who serve five years as Surgeon-General or Deputy Surgeon-General will receive on retirement extra pensions of 350½ and 250½ a year respectively, six months' leave on medical certificate, or four months on private affairs, being allowed to count as part of this service of five years. A good service pension granted to a medical officer will lapse on his obtaining the additional pension allowed to a Deputy Surgeon-General or Surgeon-General.

7. Medical officers not entitled to pension, but who, at the expiration of two years' leave of absence on medical certificate, are unfit to return to duty, will be placed on temporary or permanent half pay, after examination by the Medical Board at the India Office. The half pay granted in such a case will be the British rate of half pay of the relative rank held by the officer. The period passed on half pay will in no case be reckoned as service in calculating claims for promotion or to pension on retirement.

8. With the liberal rates of pension now introduced, I do not consider that it will be necessary to give any higher rate than that to which they may be entitled, to medical officers below the rank of Deputy Surgeon-General who may be retired on attaining the age of 55 years, under the provisions of Article 8 of the Royal Warrant of the 16th November 1880. An officer now in the Service, who is so retired, may, if he pleases, elect to receive pension under the previous Regulations.

9. You will have the goodness to publish this despatch in the General Orders of your Government.

I have, &c.,

Resolution in the Department of Finance and Commerce, No. 3574, dated the 3rd November 1880, regarding the procedure to be employed in obtaining for the public service supplies of stores of other than Indian origin or manufacture.

RESOLUTION.—The Governor General in Council finds from proposals that have been recently made in two or three instances that considerable misapprehension exists as to the extent of the discretion left to local authorities by paragraphs 4 and 5 of the Resolution cited above in the matter of the local purchase of stores of the kind referred to. As this misapprehension seems to be mainly due to the wording of these paragraphs, His Excellency in Council considers it advisable to explain more clearly the intention of the orders.

2. Every effort should be made to supply the wants of Government by the purchase in the local market of articles of *bona fide* local manufacture. The special attention of Local Governments is directed to this point.

3. In the event of articles being required which cannot be manufactured in India, they are, as an almost invariable rule, to be obtained by indenting on the Secretary of State. The Store Department at the India Office constitutes a special agency which is maintained for the express purpose of purchasing stores in England on account of the Government of India. That Department should be able to supply stores of as good quality and at as cheap a price as they can be obtained through private agency, the employment of which must necessarily involve the payment of a commission.

4. The special cases in which, with the previous sanction of the Government of India or of the Local Government, stores of European manufacture may be obtained in the local market are—

1st.—When for any special reason it may be more economical to do so.

2nd.—When stores indented for from England have not arrived, and inconvenience to the public service is anticipated from delay in the supply.

3rd.—When articles are perishable.

Books and newspapers are, under the terms of paragraph 3 of the Resolution No. 3574 of November 3rd, 1880, exempted from the general rule which obliges all European articles to be obtained as a general rule by indenting on the Secretary of State.

5. It has in some cases been alleged that articles of European manufacture can be obtained through the agency of local firms more cheaply than by indenting on the Secretary of State. If Local Governments have reason to believe that in respect to any particular article this statement is correct, the facts of the case should be communicated to the Government of India for such action as circumstances may upon consideration appear to demand. But until further orders the principles laid down in this Resolution are to regulate the purchase of stores.

ORDERED, that the foregoing Resolution be communicated for information and guidance to—

all Departments of the Government of India,

all Accountants General and Comptrollers,
the Mint Masters, Calcutta and Bombay,
the Director General of the Post Office of India,

SPECIAL.

No. 315.—The Most Honorable the Viceroy and Governor General in Council is pleased to direct the publication, for general information, of the following Despatch from the Secretary of State for India, and Minute by His Excellency:—

MILITARY,
No. 136.

INDIA OFFICE,
London, 5th May, 1881.

To His Excellency the Most Honorable the Governor General of India in Council.

PARA. 1. I have received and considered in Council your Military letter, No. 20 of 1881, forwarding, for the consideration of Her Majesty's Government, a Minute recorded by Your Lordship upon the service of various officers employed directly under the Civil Governments, and who have in their several departments rendered valuable aid towards the effectual prosecution of the military operations during the late war.

2. I desire to assure Your Lordship that the services thus brought to the notice of Her Majesty's Government are highly appreciated, and the commendation bestowed on the several officers who rendered them is fully concurred in.

3. Your Lordship has recounted those services so fully, that it is unnecessary for me to refer to them here individually. I have had, however, great satisfaction in bringing them under the most gracious consideration of Her Majesty the Queen-Empress, and I request that Your Lordship will convey to those named the cordial thanks of Her Majesty's Government for the excellent services they have rendered to the Crown.

I have, &c.,
(Sd.) HARTINGTON.

Minute by His Excellency the Viceroy and Governor General.

The Governor General in Council has lately submitted to Her Majesty's Government a long and honorable list, received from the Commander-in-Chief in India, of those officers under His Excellency's immediate command who have rendered distinguished service during the war of 1878-80 in Afghanistan, now happily brought to a close. It now becomes my pleasing duty to bring also under the notice of the Secretary of State for India the names of those officers, Civil and Military, under the Government of India who have, in their several departments, rendered valuable aid towards the effectual prosecution of the military operations.

The nature of the services rendered from first to last by the Government of Bombay, under the administration of Sir Richard Temple and Sir James Fergusson, is so well known to Her Majesty's Government, that I need do no more here than give expression to the high appreciation in which those services are held by myself and this Government. The indefatigable energy displayed by Sir Richard Temple in his visit to Kandahar and the line of communication in the winter of 1879-80 was productive of very great benefit in establishing the line of communications, and merits the particular recognition of the Governor General in Council.

To Sir Robert Egerton, who has administered the Government of the Punjab throughout the war, the Government of India is greatly indebted. His mature experience and sound judgment have been at the entire disposal of the Government, and the unfailing and valuable aid rendered by himself and his officers to the military authorities in the field and within our border merits the high approbation of Her Majesty's Government.

It is with much pleasure that I record my strong sense of the important services rendered to the Government and to the Army by the political officers, who, under circumstances of difficulty, responsibility, and occasional hazard, have generally acquitted themselves with credit and honor.

The Government of India have particular reason to be satisfied with the judgment and ability shown by the officers who have during the past two years been employed on political duty in Afghanistan and in Biluchistan.

Several of these officers have served in Afghanistan since the beginning of military operations in 1878, receiving suitable recognition of their services at the close of the first campaign.

The chief political authority at Kabul was held during times of great difficulty, first by Sir Frederick Roberts, and then by Sir Donald Stewart, and the important

civil services which they rendered must not be overshadowed by their brilliant military achievements.

The negotiations with Sirdar Abdur Rahman Khan, commenced by Sir Frederick Roberts, and afterwards under the supreme control of Sir Donald Stewart, carried on with admirable judgment and discretion, were brought to the successful issue which enabled the Government of India to withdraw Her Majesty's troops from Northern Afghanistan.

Sir Robert Sandeman, who has throughout held the chief political authority in Biluchistan, has been indefatigable in his exertions to assist the passage of our troops through that country by maintaining communications, procuring supplies, and preserving control over the Pathan border tribes. His remarkable personal influence has been highly successful. Captain Henry Wylie and Captain Curzon Wylie, Sir Robert Sandeman's assistants, have been very useful.

Lieutenant-Colonel St. John has now held for two years a very responsible and important position at Kandahar; and he has latterly had in his hands the chief management of our political affairs in South Afghanistan. His ability, zeal, and energy have been conspicuous throughout, and deserve recognition.

Mr. Lepel Griffin was specially selected for important political duties at Kabul, and took, with a marked ability and skill, of which I desire to record my high appreciation, a leading part in the direction of political affairs during the six months which preceded the withdrawal of our troops from North Afghanistan. He was assisted by a very capable staff of European and Native officers. Colonel Tweedie, Captain Warburton, Major Protheroe, Captain Burton, Captain Tucker, and Mr. Merk, c.s., merit the commendation of the Government for excellent work upon the line of communication with Kabul. Nawab Sir Gholam Hoscin, K.C.S.I., has earned marked distinctions for zealous and valuable services both at Kandahar and at Kabul. Mohamed Afzul Khan of Gundapur, Ressaidar Afzul Khan, and Ibrahim Khan have acted in various capacities with courage and intelligence.

In North Afghanistan, Major E. G. G. Hastings and Mr. H. M. Durand, c.s., who accompanied Sir Frederick Roberts' advance upon Kabul in September and October 1879, did excellent service at Kabul with the army during the winter. Major Hastings was afterwards nominated Chief Political Officer with Sir Frederick Roberts when he marched to Kandahar, and was accompanied in that march by Major M. Protheroe, Captain J. Ridgeway, and Major C. B. Euan Smith.

Colonel W. G. Waterfield accompanied Sir Frederick Roberts when he first occupied Kuram, and for some time held political charge in that district. Major A. Conolly, Mr. A. Christie, c.s., and Shahzada Sultan Jan administered Kuram until it was evacuated.

Major-General J. Watson, C.B., V.C., was for a lengthened period the principal political officer in the Kuram Valley, and it was under his direction that the final settlement of that district was satisfactorily concluded.

I now desire to place on record my strong sense of the good work which has been performed throughout the war by the several departments of the Government of India, whose duties connect them with such operations.

In time of war the heaviest burden will necessarily fall on the military branch of the administration: but in such a war as that which has just closed, a weight of responsibility rests also on the Political Department which cannot easily be overestimated.

In Mr. A. C. Lyall the Government of India is fortunate in possessing a Foreign Secretary whose varied talents, long experience, and unfailing industry are such as to ensure the complete efficiency of the department under his charge. Throughout the difficult and delicate negotiations relating to the settlement of affairs in Northern Afghanistan which have been carried on since I assumed the office of Governor General, I have received from him a constant and ready assistance of which it is impossible to overestimate the value, and which, while offering him personally my warm thanks, I desire to bring under the special notice of Her Majesty's Government.

During the regretted absence of General Sir Edwin Johnson, the Military Department was, for the earlier part of the war, in the charge successively of Sir Samuel Browne, Sir Neville Chamberlain, and Lieutenant-General R. Strachey. Of the merits of these officers I need hardly speak. During the whole of this time Colonel H. K. Burne performed the laborious and responsible duties of Secretary in the Department.

For their departmental services during the earlier phase of the war the names of—

Captain E. H. H. Collen,
Major A. C. W. Crookshank, and
Captain T. Deane,

Assistant Secretaries in the Military Department, have been already brought to the favorable notice of the Secretary of State.

During the second phase of the war, Sir Edwin Johnson, having resumed his seat in Council with the charge of the Military Department, rendered valuable and zealous assistance to the Government. Colonel Allen Johnson succeeded Colonel Burne as Secretary in October, 1879, and it is a great pleasure to me to have this opportunity of bearing cordial testimony to the marked ability and judgment with which the business of the department has been conducted by him.

Both Sir Edwin Johnson and Colonel Johnson speak in high terms of the services of Captain T. Deane, who also received the distinction of favorable mention in Sir Frederick Roberts' despatches for his purely military services at Sherpur, whither he had accompanied Lieutenant-General Sir Michael Kennedy, who also bears testimony to his services on that occasion.

I have much pleasure in recording also the following names of officers considered by the Government of Bombay to have rendered exceptionally good departmental services in connection with the operations in Southern Afghanistan:—

Colonel J. A. M. Macdonald, Secretary in the Military Department.
Surgeon-General J. M. S. Fogo, A.M.D.

As regards the different executive departments, I do not propose in this Minute to dwell in any detail on the special services of the officers concerned: the reports which will be called for from the several departments will fulfil this purpose. My object is only to place on record the names of those whose services, though not actually performed in the field, deserve to be brought to the favorable notice of Her Majesty's Government as having materially tended to the successful issue of the war.

Excellent work was performed throughout the war by the officers of the Ordnance Department serving in British territory, under the able administration of Major-General Napier Campbell, R.A., the Inspector-General of Ordnance, Bengal, who brings forward the name of Major R. F. Lewis as specially deserving of notice for his departmental services.

The Government of Bombay also brings to notice the good services rendered by Lieutenant-General W. S. Hatch, Inspector-General of Ordnance in that Presidency, and—

Major F. W. M. Spring,
„ T. Walker,

of the same Department.

The experience gained in the earlier phase of the war led the Earl of Lytton, when hostilities were renewed in September, 1879, to form the important business of transport and supply into a separate department. In placing at its head an officer of such proved administrative ability as Lieutenant-General Sir Michael Kennedy, he went far towards assuring success.

My predecessor in the office of Viceroy, in his Minute of the 4th June, has placed on record his high appreciation of the services rendered by Sir Michael Kennedy, and the department of which he was the head, from the recommencement of hostilities in September, 1879 down to the month of June last, and it remains therefore only for me, after having received Sir Michael Kennedy's report upon the subject, to supplement what Lord Lytton has said by expressing my own opinion of the very able and successful manner in which the officers of the Transport and Supply Department have performed their duties during the time that I have been Governor General.

The march of Sir Frederick Roberts' division from Kabul to Kandahar, and the withdrawal of Sir Donald Stewart's forces from Kabul to India, were operations requiring the greatest intelligence and energy on the part of every one connected with the business of transport and supply, and the complete and perfect success which has attended those operations is the best proof of the way in which the duties of the department have been discharged: while the large and sudden demands made upon the department in connection with the despatch of reinforcements from India to Kandahar, after the battle of Maiwand, were met with the utmost rapidity and skill.

Having worked personally with Sir Michael Kennedy during these operations, I can speak from my own knowledge of the fertility of resource with which he overcame every difficulty, and of the calmness which he preserved under circumstances which were at times of a very trying nature, and I beg to tender him my best thanks.

Sir Michael Kennedy brings to special notice the Assistant-Controller-General of Transport and Supply—

Captain E. H. H. Collen,
to whose great merits he bears strong testimony.

He also mentions the valuable assistance he received from Colonel A. G. F. Hogg, Bombay Army, who acted as his Assistant during the earlier portion of the campaign.

Sir Michael Kennedy also brings forward the names of several officers of the Transport Department as deserving of the approbation of the Government. Some of these have been already included in the list of officers recommended by the Commander-in-Chief for service in the field. Of those whose labors, although valuable and important, did not bring them into the sphere of active operations, the following should be here mentioned :—

Major J. F. F. Cologan.

Veterinary Surgeon B. W. Skoulding.

Sir Michael Kennedy also brings forward—

Lieutenant-Colonel M. Lane, Postmaster-General, Punjab,
as deserving of special notice, and commends highly—

Captain J. B. Hutchinson, Deputy Commissioner.

The regularity with which the armies in Afghanistan have been supplied throughout the war testifies to the generally excellent manner in which the business of the Commissariat Department has been conducted. Many of the officers of the Commissariat Departments have received high commendation for their services in the field, and have been included in the list of officers recommended for military honors. I must record my approbation of the services of the Bengal Commissariat Department generally, under the zealous control of Colonel Willes, the Commissary-General. Colonel Montagu, Assistant Commissary-General, and Captain L. W. Christopher, Deputy Assistant Commissary-General, are very favorably mentioned by Sir Michael Kennedy, who also notices the good work of Major Sir B. Bromhead, Captain Wintle, and Captain St. Paul, of the same department. The Government of Bombay brings to notice the following officers of the Commissariat Department of that Presidency in addition to those commended for service in the field :—

Colonel F. P. Mignon.

„ M. W. Willoughby.

Lieutenant-Colonel A. Phelps.

Lieutenant-Colonel H. R. M. Van Heythuysen.

I record also with pleasure the valuable services rendered by Colonel Willoughby while officiating for Colonel Macdonald as Secretary in the Bombay Military Department.

On the Kandahar line of communications much good work has been performed by the transport officers, many of whom receive fitting notice from the Commander-in-Chief in India.

The operations of the war, both at the base and in the field, have been greatly aided by the officers serving in the Railway and Telegraph Departments.

To the services in the field of the executive officers of this latter department, the military despatches bear ample testimony, and they have received the full recognition of His Excellency the Commander-in-Chief. I desire, however, to place prominently on record the high sense entertained by the Government of India of the resource and zeal displayed in the administration of the Telegraph Department by Colonel R. Murray, the Director-General in India.

For services rendered to the several divisions of the army, the following gentlemen deserve special recognition :—

Mr. S. P. Luke, C.I.E.

Mr. R. Boteler.

Mr. H. Kirk.

Mr. G. Towers.

Colonel Murray speaks in very favorable terms of the aid he has derived from the labor and experience of Mr. A. Cappel, the Deputy Director-General, and Mr. S. J. Josephs, his Assistant Superintendent.

During the recent war the military operations have been greatly dependent on the efficient working of the railway system in Upper India. I desire to express in strong terms my sense of the obligation which the Government of India is under to the officers to whose exertions and administrative capacity it is mainly due that the objects of the Government and of the military authorities were unhampered by any failure of supply at the base.

The credit of these results is due to—

Major-General J. S. Trevor, R.E., Director-General of Railways,
Colonel J. G. Medley, R.E., Consulting Engineer to Government, Lahore, and
Mr. Guilford Molesworth, C.I.E., Consulting Engineer to Government
for State Railways,

and in no less degree to the unwearrying zeal and intelligence of—

Mr. D. Ross, Traffic Manager of the Sind, Punjab and Delhi Railway,
and of

Mr. G. F. Mathew, Traffic Manager of the Indus Valley Railway.

Valuable services have also been performed by the undermentioned officers of the Public Works Department:—

Lieutenant-Colonel D. Ward, R.E.,

Captain J. T. Wright, R.E.,

Mr. T. W. Morse,

Lieutenant H. Appleton, R.E.,

Mr. E. Farrant, employed on military works at the base of the operations, and

Major A. J. Filgate, R.E., Officiating Accountant-General.

Those officers of the Public Works Department who were employed on active duties in the field received due mention in the despatches of the General officers under whom they served; but I desire to record my own thanks to Major-General A. Fraser, the Secretary in the Public Works Department, for the willing aid he has rendered to the military authorities throughout the operations.

The Indian Marine performed excellent service in arranging for and carrying out the rapid and efficient transport of large numbers of troops of all arms from Bombay to Karachi.

The Bombay Government selects for special notice in connection with these duties—

Lieutenant G. O'B. Carew, Superintendent of Marine,

Lieutenant J. Brebner,

Mr. W. J. Powell, and

The Master-BUILDER, Khan Bahadur Jamsetjee Dhunjibhoy Wadia.

The Lieutenant-Governor of the Punjab brings to deserved notice the following officers, as having rendered valuable service during the war:—

Colonel S. Black, Military Secretary to the Punjab Government.

Colonel A. H. Bamfield, Inspector-General of Police.

Major-General C. Pollard, Secretary, Public Works Department.

ORGANIZATION.

No. 326.—BRITISH ARMY—

The following Horse Guards General Order is published for information:—

Horse Guards General Order No. 41 of 1881.

(Specially issued on the 11th April 1881.)

ARMY ORGANIZATION.

I. The following changes in the organization, titles and uniform of the regiments of the Infantry of the Line and Militia having been approved, are promulgated for general information. When not otherwise stated, they will come into effect on 1st July, 1881.

II. *Organization.*—The Infantry of the Line and Militia will in future be organized in Territorial Regiments, each of four battalions for England, Scotland and Wales, and of five battalions for Ireland; the 1st and 2nd of these being Line battalions, and the remainder Militia. These regiments will bear a territorial designation corresponding to the localities with which they are connected; and the words "Regimental District" will in future be used in place of "Sub-District," hitherto employed.

III. In those regimental districts where more than the requisite number of Militia battalions at present exist, the supernumerary battalions will either be converted into Artillery or Engineers, or absorbed, according to circumstances. In those where only one exists, another will be formed as soon as practicable.

IV. The following alterations in the localization of Line battalions will take place:—

The 26th and 90th will be localized together at	Hamilton.
" 39th " 54th " " "	Dorchester.
" 42nd " 73rd " " "	Perth.
" 43rd " 52nd " " "	Oxford.
" 45th " 95th " " "	Derby.
" 53rd " 85th " " "	Shrewsbury.
" 71st " 74th " " "	Hamilton.
" 72nd " 78th " " "	Fort George.
" 75th " 92nd " " "	Aberdeen.
" 87th " 89th " " "	Armagh.
" 88th " 94th " " "	Galway.
" 91st " 93rd " " "	Stirling.

V. The 79th will be localized at Inverness, round which centre a fresh regimental district will be formed.

VI. Soldiers serving in any of the battalions mentioned in paragraph IV, previous to the 1st July, 1881, will not be liable to serve in the other Line Battalion of their new Territorial Regiment without their own consent.

VII. In addition to the regiments formed out of the existing Rifle battalions of the Line, the Territorial Regiments formed out of the—

26th and 90th with their affiliated Militia battalions,
83rd " 86th " " "

will become Rifles.

VIII. *Honours and Distinctions.*—All distinctions, mottoes, badges or devices, appearing hitherto in the "Army List," or on the colors, as borne by either of the Line battalions of a Territorial Regiment, will in future be borne by both those battalions. Battalions which have not hitherto borne a special device will adopt a national badge, as follows:—

English regiments	A Rose.
Scotch " "	A Thistle.
Irish " "	A Shamrock.
Welsh " "	A Dragon.

IX. *Uniform.*—With the exceptions noted in paragraph XIII, the uniform of all the battalions of a Territorial Regiment will be the same. The title of the regiment will be shown on the shoulder strap.

X. The facings and the Officers' lace of Territorial Regiments will be the same for all regiments belonging to the same country (Royal and Rifle regiments excepted), and will be as follows:—

	Facings.	Pattern of lace.*
English (and Welsh) Regiments	White	Rose.
Scotch regiments	Yellow	Thistle.
Irish " "	Green	Shamrock.

* Patterns of the three kinds of lace are in the War Office pattern-room.

XI. Royal Regiments will retain blue facings, wearing the national lace. The black line will be maintained in the lace of Territorial Regiments, any of whose battalions are now authorized to wear it.

XII. The following regiments, in addition to those already wearing the kilt, will adopt it, *viz.*, the 72nd, 73rd, 75th and 91st. All other Scotch Regiments will wear trews and the Highland jacket.

XIII. Militia battalions will wear an "M" on the shoulder strap above the title of the Territorial Regiment. Scotch Militia battalions belonging to a regiment whose Line battalions are kilted will, instead of the kilt, wear trews of the same tartan. The Royal Aberdeenshire and the Highland Light Infantry Militia will, however, continue to wear the kilt.

XIV. The accompanying Tables (see Appendix) show the precedence, composition, title and uniform of the new Territorial Regiments.

XV. The changes of uniform for battalions, which become either kilted or rifles, will come into effect both for Officers and men on 1st April 1882, with the exception of the 73rd Regiment, which will adopt its new uniform on 1st July, 1881. Officers joining these battalions will, previous to the change, only be required to appear in undress uniform.

XVI. Changes of facings and alterations in badges (for battalions in which these and the Officers' lace only are changed) will come into effect, both for the Line and the Militia, as regards the men, on 1st July, 1881. Officers newly appointed to these battalions will at once provide themselves with uniform in accordance with these instructions, and other Officers in them as they may require to replace that now in possession.

XVII. Paragraphs XV and XVI will not apply to the Militia Battalions of those regimental districts where their number at present exceeds two in England and three in Ireland. In these cases the Militia Battalions will continue to wear their present uniform, pending further instructions.

ARTIKEL V.

In dem Reiche Ihrer Britannischen Majestät, mit Ausnahme der Colonien und Answärtigen Besitzungen, soll verfahren werden wie folgt.

(a) Wenn es sich um eine angeklagte Person handelt, wird das Auslieferungsbegehren von dem diplomatischen Vertreter der Schweizerischen Eidgenossenschaft dem Hauptstatsekretär der Auswärtigen Angelegenheiten Ihrer Majestät Regierung eingereicht. Dieses Begehren soll von einem Verhaftsbefehl oder einem andern gerichtlichen Aktenstück von gleichen Werthe, ausgestellt von einem zur Untersuchung der dem Angeklagten in der Schweiz zur Last gelegten Handlungen kompetenten Richter oder andern Beamten begleitet sein, sowie von den gehörig legalisirten vor diesem Richter oder Beamten beschworenen oder feierlich als Wahrheit erklärten Depositionen oder Aussagen, aus welchen die in Frage stehenden Handlungen klar hervorgehen, und welche überdies das Signalement der reklamierten Person und genügende Details enthalten zur Feststellung ihrer Identität.

Der genannte Hauptstatsekretär soll diese Aktenstücke dem Hauptstatsekretär Ihrer Majestät für das Departement des Innern mittheilen, welcher mittels eigenhändig unterzeichneter und mit seinem Siegel versehenen Ordre einem Polizeimagistrate in London von dem gestellten Auslieferungsbegehren mittheilung macht und ihn beauftragt, wenn genügender

On the receipt of such order from the Secretary of State, and on the production of such evidence as would, in the opinion of the Magistrate, justify the issue of the warrant if the crime had been committed in the United Kingdom, he shall issue his warrant accordingly.

When the person claimed shall have been apprehended, he shall be brought before the Magistrate who issued the warrant, or some other Police Magistrate in London. If the evidence to be then produced shall be such as to justify, according to the law of England, the committal for trial of the prisoner, if the crime of which he is accused had been committed in the United Kingdom, the Police Magistrate shall commit him to prison to await the warrant of the Secretary of State for his surrender; sending immediately to the Secretary of State a certificate of the committal and a report upon the case.

After the expiration of a period from the committal of the prisoner, which shall never be less than fifteen days, the Secretary of State shall, by order under his hand and seal, order the fugitive criminal to be sent to such seaport town as shall, in each special case, be selected for his delivery to the Swiss Government.

(b) In the case of a person convicted—

The course of proceeding shall be the same as in the case of a person accused, except that the warrant to be transmitted by the Diplomatic Representative of Switzerland in support of his requisition shall clearly set forth the crime or offence of which the person claimed has been convicted, and state the place and date of his conviction.

The evidence to be produced shall consist of the penal sentence passed against the convicted person by the competent Court of the State claiming his extradition.

(c) Persons convicted by judgment in default or *arrêt de contumace* shall be, in the matter of extradition, considered as persons accused, and may, as such, be surrendered.

(d) After the Police Magistrate shall have committed the accused or convicted person to prison to await the order of a Secretary of State for his surrender, such person shall have the right to apply for a writ of *habeas corpus*; if he should so apply, his surrender must be deferred until after the decision of the Court upon the return to the writ, and even then can only take place if the decision is adverse to the applicant. In the latter case, the Court may at once order his delivery to the person authorised to receive him, without waiting for the order of a Secretary of State for his surrender, or commit him to prison to await such order.

ARTICLE VI.

In Switzerland the manner of proceeding shall be as follows:—

The requisition for the extradition of an accused person must be accompanied by an

Grund dazu vorliegt, den Verhaftsbefehl gegen den Flüchtigen zu erlassen. Nach dem Empfang dieser Ordre des Statsekretärs und auf die Vorlage solchen Beweises, welcher nach der Ansicht des Magistraten den Erlass des Verhaftsbefehles rechtfertigen würde, wenn das Verbrechen in dem Vereinigten Königreiche verübt worden wäre, soll er den Verhaftsbefehl erlassen.

Wenn die reklamierte Person verhaftet worden ist, so soll sie vor den Magistraten, welcher den Verhaftsbefehl erlassen hat, oder vor einen andern Polizeimagistraten in London gebracht werden. Wenn der hierauf zu produzierende Beweis ein solcher ist, das er gemäss dem englischen Geseze hinreichen würde, um den Verhafteten zur Aburtheilung vor das Gericht zu verweisen, falls das Verbrechen, dessen er angeklagt ist, im Vereinigten Königreiche verübt worden wäre, so soll der Polizeimagistrat dessen Versezung in das Gefängniss verfügen, um die Ordre des Statsekretärs zum Vollzuge der Auslieferung abzuwarten und dem Statsekretär sofort ein Attestat über diese Verfügung mit Bericht über den Fall mittheilen.

Nachdem seit der Verfügung über die Versezung des Verhafteten in das Gefängniss eine Zeitfrist verflossen ist, welche nie weniger als fünfzehn Tage betragen darf, soll der Statsekretär durch eine von ihm eigenhändig unterzeichnete und mit seinem Siegel versehene Ordre den Transport des auszuliefernden Individuums in denjenigen Meerhafen anordnen, welcher zu dessen Auslieferung an die schweizerische Regierung im einzelnen Falle bezeichnet werden wird.

(b) Wenn es sich um eine verurtheilte Person handelt, so soll gleich verfahren werden, wie wenn es sich um eine angeklagte Person handeln würde, ausgenommen, dass in dem Verhaftsbefehle, welcher von dem diplomatischen Vertreter der Schweiz zur Unterstützung des Auslieferungsbegehrens einzureichen ist, das Verbrechen oder Vergehen, wegen dessen das reklamierte Individuum verurtheilt wurde, klar dargestellt, und auch der Ort und das Datum des Urtheiles angegeben werden müssen.

Als Beweis muss das Strafurtheil beigebracht werden, welches von dem zuständigen Gerichte des die Auslieferung begehrenden States gegen den Verurtheilten erlassen worden ist.

(c) Personen, welche in *contumaciam* verurtheilt worden sind, werden in Auslieferungsangelegenheiten wie Angeklagte behandelt und als solche ausgeliefert.

(d) Nachdem der Polizeimagistrat die Versezung des Angeklagten oder Verurtheilten in das Gefängniss verfügt hat, um die Ordre des Statsekretärs zur Vollziehung seiner Auslieferung abzuwarten, hat diese Person das Recht, um eine Verfügung auf *habeas corpus* einzukommen. Wenn sie hievon gebrauch macht, so soll die Auslieferung verschoben werden bis nach dem Entschiede des Gerichtshofes über ihr Gesuch, und kann nur stattfinden, wenn der Entscheid für den Petenten ungünstig lautet. Im letztern Falle kann das Gericht gleichzeitig die Vollziehung der Auslieferung verfügen, ohne die Ordre des Statsekretärs abzuwarten oder es kann die Beibehaltung des Verhafteten verfügen bis nach Erlass jener Ordre.

ARTIKEL VI.

In der Schweiz soll folgendes Verfahren stattfinden:

Im Falle das Auslieferungsbegehren gegen eine angeklagte Person gerichtet ist, so muss eine

authentic copy of the warrant of arrest, issued by a competent official or Magistrate, clearly setting forth the crime or offence of which he is accused, together with a properly legalized information setting forth the facts and evidence upon which the warrant was granted.

If the requisition relates to a person already convicted, it must be accompanied by an authentic copy of the sentence or conviction, setting forth the crime or offence of which he has been convicted.

The requisition must also be accompanied by a description of the person claimed, and if it be possible, by other information and particulars which may serve to identify him.

After having examined these documents, the Swiss Federal Council shall communicate them to the Cantonal Government in whose territory the person charged is found in order that he may be examined by a judicial or police officer on the subject of their contents.

The Cantonal Government will transmit the *procès-verbal* of the examination, together with all the documents, accompanied, if there be one, by a more detailed report to the Federal Council, who, after having examined them, and there be no opposition on either side, will grant the extradition, and will communicate its decision both to the British Legation and to the Cantonal Government in question, to the latter in order that it may send the person to be surrendered to such place on the frontier, and deliver him to such foreign police authority as the British Legation may name in each special case.

Should the documents furnished with a view of proving the facts, or of establishing the identity of the accused, or the particulars collected by the Swiss authorities appear insufficient, notice shall be immediately given to the Diplomatic Representative of Great Britain, in order that he may furnish further evidence. If such further evidence be not furnished within fifteen days the person arrested shall be set at liberty.

In the event of the application of this Treaty being contested, the Swiss Federal Council will transmit the documents ("dossier") to the Swiss Federal Tribunal, whose duty it is to decide definitely the question whether extradition should be granted or refused.

The Federal Council will communicate the judgment of the Federal Tribunal to the British Legation. If this judgment grants the extradition the Federal Council will order its execution, as in the case when the Federal Council itself grants the extradition. If, on the other hand, the Federal Tribunal refuses the extradition, the Federal Council will immediately order the person accused to be set at liberty.

ARTICLE VII.

In the examinations which they have to make in accordance with the foregoing stipulations, the authorities of the State applied to shall admit as entirely valid evidence the depositions or statements of witnesses, either sworn or solemnly declared to be true, taken in the other State, or copies thereof, and likewise the warrants and sentences issued therein, or copies thereof, provided such documents purport to be signed or certified by a Judge, Magistrate, or officer of such

authentische Kopie des von einem kompetenten Beamten oder Magistraten erlassenen Verhaftsbefehles der das Verbrechen oder Vergehen, dessen sie angeklagt ist, klar bezeichnet, vorgelegt werden und von einer gehörig legalisirten Darstellung der Thatsachen und der Beweise, gestützt auf welche der Verhaftsbefehl bewilligt worden ist, begleitet sein.

Wenn das Auslieferungsbegehren eine verurtheilte Person betrifft, so muss es von einer authentischen Kopie des Urtheiles begleitet sein, worin das Verbrechen oder Vergehen, wegen dessen sie verurtheilt wurde, angegeben ist.

Mit dem Auslieferungsbegehren müssen ferner das Signalement der reklamirten Person, und, wenn möglich, noch andere Informationen und Details, welche zur Feststellung ihrer Identität dienen mögen, vorgelegt werden.

Nach geschehener Prüfung dieser Schriftstücke wird sie der Bundesrath derjenigen Kantonsregierung übersenden, auf deren Gebiet der Verfolgte sich befindet, damit der Letztere durch einen gerichtlichen oder polizeilichen Beamten über ihren Inhalt einvernommen werde.

Die Kantonsregierung wird das Einvernahmsprotokoll nebst sämtlichen Akten und allfälligen weiteren Berichte dem Bundesrath übersenden, welcher nach erfolgter Prüfung derselben, im Falle von Keiner Seite Einsprache erhoben ist, die Auslieferung bewilligen und seinen Entscheid sowohl der Gesandtschaft von Grossbritannien, als auch der betreffenden Kantonsregierung mittheilen wird, letzterer behufs Uebergabe des auszuliefernden Individuums an derjenigen Grenzstelle und an diejenige auswärtige Polizeibehörde, welche im einzelnen Falle von der Grossbritannischen Gesandtschaft zu bezeichnen ist.

Wenn die zur Feststellung des Thatbestandes oder der Identität des Angeklagten vorgelegten Aktenstücke oder die von den schweizerischen Behörden zu gleichen Zwecken gemachten Erhebungen ungenügend erscheinen sollten, so wird dem diplomatischen Vertreter Grossbritanniens unverzüglich davon Mittheilung gemacht behufs weiterer Nachweise. Werden sie nicht vor Ablauf von 15 Tagen beigebracht, so wird der Verhaftete in Freiheit gesetzt.

I am Falle gegen die Anwendbarkeit dieses Vertrages eine Einsprache vorliegt, wird der Bundesrath sämtliche Akten dem schweizerischen Bundesgerichte übersenden, welches über die Bewilligung oder Verweigerung der Auslieferung definitiv zu entscheiden hat.

Der Bundesrath wird den Entscheid des Bundesgerichtes der Grossbritannischen Gesandtschaft mittheilen. Lautet derselbe auf Bewilligung der Auslieferung, so wird der Bundesrath die Vollziehung anordnen wie in dem Falle, wo er von sich aus die Auslieferung bewilligt hat. Ist dagegen vom Bundesgerichte die Auslieferung abgelehnt worden, so wird der Bundesrath sofort die Freilassung des Verhafteten verfügen.

ARTIKEL VII.

Die Behörden des ersuchten States haben bei der Prüfung, welche ihnen nach den vorstehenden Bestimmungen obliegt, den beschworenen oder feierlich als Wahrheit erklärten Depositionen und Zeugenaussagen, welche in dem andern State zu Protokoll genommen sind, desgleichen den Abschriften hievon und ebenso den in andern State erlassenen Haftbefehlen und Urtheilen oder Abschriften hievon volle Beweiskraft beizulegen, vorausgesetzt, dass in diesen Schrift-

The personal attendance of witnesses can be required only to establish the identity of the person who is being proceeded against with that of the person arrested.

ARTICLE VIII.

If proof sufficient to warrant the extradition be not furnished within two months from the day of the apprehension, the person arrested shall be discharged from custody.

ARTICLE IX.

In cases where it may be necessary, the Swiss Government shall be represented at the English Courts by the Law Officers of the Crown, and the English Government in the Swiss Courts by the competent Swiss authorities.

The respective Governments will give the necessary assistance within their territories to the Representatives of the other State who claim their intervention for the custody and security of the persons subject to extradition.

No claim for the repayment of expenses for the assistance mentioned in this Article shall be made by either of the Contracting Parties.

ARTICLE X.

The present Treaty shall apply to crimes and offences committed prior to the signature of the Treaty; but a person surrendered shall not be tried for any crime or offence committed in the other country before the extradition other than the crime for which his surrender has been granted.

ARTICLE XI.

A fugitive criminal shall not be surrendered if the offence in respect of which his surrender is demanded is one of a political character, or if he prove that the requisition for his surrender has, in fact, been made with a view to try and punish him for an offence of a political character.

ARTICLE XII.

The extradition shall not take place if, subsequently to the commission of the crime, or the institution of the penal prosecution, or the conviction thereon, exemption from prosecution or punishment has been acquired according to the laws of the State applied to.

ARTICLE XIII.

The extradition shall not take place if the person claimed on the part of the Government of the United Kingdom, or the person claimed on the part of the Swiss Government, has already been tried and discharged or punished, or is still under trial, in one of the Swiss Cantons or in the United Kingdom respectively, for the crime for which his extradition is demanded.

Das persönliche Erscheinen von Zeugen darf nur verlangt werden zur Feststellung der Identität der Person des Verfolgten mit derjenigen des Verhafteten.

ARTIKEL VIII.

Wenn der zur Bewilligung der Auslieferung genügende Beweis nicht binnen zwei Monaten von dem Tage der Ergreifung des Flüchtlings an beigebracht wird so ist der Ergriffene auf freien Fuss zu setzen.

ARTIKEL IX.

In Fällen, wo es nöthig sein mag, wird die schweizerische Regierung bei den Englischen Gerichtshöfen durch die Kronanwälte, und die Englische Regierung bei den schweizerischen Behörden durch die kompetenten schweizerischen Beamten vertreten sein.

Die beiden Regierungen werden den Repräsentanten des andern States, welche ihre Intervention behufs der Verwahrung und Sicherung der anzuliefernden Person verlangen, auf ihren Gebieten die nöthige Hilfe gewähren.

Für die aus diesem Artikel entspringende Rechtshilfe wird gegenseitig auf jede Vergütung von Kosten verzichtet.

ARTIKEL X.

Der gegenwärtige Vertrag ist auf Verbrechen und Vergehen anwendbar, welche vor seiner Unterzeichnung begangen worden sind. Die ausgelieferte Person darf jedoch wegen keines andern in dem andern Lande vor der Auslieferung begangenen Verbrechens oder Vergehens zur Beurtheilung gezogen werden, als wegen desjenigen, für welches die Auslieferung gewährt worden ist.

ARTIKEL XI.

Ein flüchtiger Verbrecher soll nicht ausgeliefert werden, wenn die strafbare Handlung, wegen deren seine Auslieferung verlangt wird, einen politischen Charakter an sich trägt, oder wenn er nachweisen kann, dass der Antrag auf seine Auslieferung in Wirklichkeit mit der Absicht gestellt worden ist, ihn wegen eines Verbrechens oder Vergehens politischer Natur zu verfolgen oder zu bestrafen.

ARTIKEL XII.

Die Auslieferung soll nicht stattfinden, wenn seit der begangenen strafbaren Handlung, oder der Einleitung der strafgerichtlichen Verfolgung, oder der erfolgten Verurtheilung nach den Gesetzen des ersuchten States Befreiung von der strafgerichtlichen Verfolgung oder der erkannten Strafe eingetreten ist.

ARTIKEL XIII.

Die Auslieferung soll nicht stattfinden, wenn die von der schweizerischen Regierung verfolgte Person im Vereinigten Königreiche, oder die Seitens der Regierung des Vereinigten Königreiches verfolgte Person in einem Kanton der Schweiz wegen derselben strafbaren Handlung, wegen deren die Auslieferung beantragt wird, in Untersuchung gewesen und ausser Verfolgung gesetzt worden, oder sich noch in Untersuchung befindet oder bereits bestraft worden ist.

ARTICLE XIV.

If the person claimed on the part of the Government of the United Kingdom, or if the person claimed on the part of the Swiss Government, should be under examination, or have been condemned for any other crime, in one of the Swiss Cantons or in the United Kingdom respectively, his extradition may be deferred until he shall have been set at liberty in due course of law.

In case such individual should be proceeded against in the country in which he has taken refuge, on account of obligations contracted towards private individuals, his extradition shall, nevertheless, take place; the injured party retaining his right to prosecute his claims before the competent authority.

ARTICLE XV.

If the individual claimed by one of the two High Contracting Parties in pursuance of the present Treaty should be also claimed by one or several other Powers, on account of other crimes or offences committed upon their respective territories, his extradition shall be granted to that State whose demand is earliest in date.

ARTICLE XVI.

All articles seized, which were in the possession of the person to be surrendered at the time of his apprehension, shall, if the competent authority of the State applied to for the extradition has ordered the delivery thereof, be given up when the extradition takes place, and the said delivery shall extend not merely to the stolen articles, but to everything that may serve as a proof of the crime.

This delivery shall take place even when the extradition, after having been granted, cannot be carried out by reason of the escape or death of the individual claimed, unless the claims of third parties with regard to the above-mentioned articles render such delivery inexpedient.

ARTICLE XVII.

The contracting parties renounce any claim for the reimbursement of the expenses incurred by them in the arrest and maintenance of the person to be surrendered, and his conveyance to the frontiers of the State to which the requisition is made; they reciprocally agree to bear such expenses themselves.

ARTICLE XVIII.

The stipulations of the present Treaty shall be applicable to the Colonies and foreign possessions of Her Britannic Majesty.

The requisition for the surrender of a fugitive criminal who has taken refuge in any of such Colonies or foreign possessions, shall be made to the Governor or to the supreme authority of such Colony or possession through the Swiss Consul residing there, or, in case there should be no Swiss Consul, through the recognized Consular Agent of another State charged with the Swiss interests in the Colony or possession in question.

ARTIKEL XIV.

Wenn die von der schweizerischen Regierung verfolgte Person in Vereinigten Königreiche oder wenn die Seitens der Regierung des Vereinigten Königreiches verfolgte Person in einem Kanton der Schweiz wegen einer andern strafbaren Handlung in Untersuchung liegt oder verurtheilt worden ist, so kann die Auslieferung verschoben werden bis diese Person in gehörigen Rechtsgang in Freiheit gesetzt worden ist.

Wird ein solches Individuum wegen Verpflichtungen, die dasselbe mit Privatpersonen abgeschlossen hat, in jenem Lande, in welchem es Zuflucht genommen hat, gerichtlich verfolgt, so soll dessen Auslieferung dennoch stattfinden, dabei aber der beschädigten Partei das Recht vorbehalten bleiben, ihre Ansprache vor der kompetenten Behörde geltend zu machen.

ARTIKEL XV.

Wird ein Individuum von einer der beiden Vertragsparteien auf Grund des gegenwärtigen Vertrages zur Auslieferung reklamiert, zugleich aber auch dessen Auslieferung von einer oder mehreren andern Mächten wegen anderer auf deren Gebieten begangener Verbrechen oder Vergehen verlangt, so ist dasjenige Gesuch im Vorgange zu bewilligen, welches das älteste im Datum ist.

ARTIKEL XVI.

Alle in Beschlag genommenen Gegenstände, welche zur Zeit der Verhaftung der auszuliefernden Person in deren Besitz waren, sollen, wenn die zuständige Behörde des um die Auslieferung ersuchten States die Ausantwortung derselben angeordnet hat, bei Vollziehung der Auslieferung mitübergeben werden, und diese Ueberlieferung soll sich nicht blos auf die entfremdeten Gegenstände, sondern auch auf Alles erstrecken, was zum Beweis, der strafbaren Handlung dienen kann.

Die Ablieferung dieser Gegenstände soll auch dann stattfinden, wenn die bereits bewilligte Auslieferung wegen der Entweichung oder des Todes der auszuliefernden Person unmöglich geworden ist, es wäre denn, dass die Ansprüche dritter Personen in Betreff der erwähnten Gegenstände deren Ablieferung nicht zu lassen.

ARTIKEL XVII.

Die vertragenden Theile verzichten darauf, die Erstattung derjenigen Kosten, welche ihnen aus der Festnahme und dem Unterhalte des Auszuliefernden und seinem Transport bis zur Grenze des requirirten States erwachsen, in Anspruch zu nehmen, willigen vielmehr gegenseitig darein diese Kosten selbst zu tragen.

3. It was my pleasing duty to lay before Her Majesty your Lordship's Minute, with an expression of my full concurrence in its views.

(Signed) HARTINGTON.

MINUTE BY HIS EXCELLENCY THE VICEROY AND GOVERNOR GENERAL.

THE Commander-in-Chief has submitted to the Government of India the report of Lieutenant-General Sir D. M. Stewart on the withdrawal of the army under his command from Kabul in August last.

Action on this report has been unavoidably postponed. The acknowledgments of the Government of India should now be conveyed, through His Excellency, to Sir Donald Stewart and the General and other Officers serving under him for the admirable way in which this important and difficult operation was performed; but the opportunity may also be taken to signify the high estimation in which the very important services rendered by Sir Donald Stewart throughout the war are held by the Governor General in Council.

A list of the officers recommended for the honors of the Bath and for brevet promotion, on account of their services during the second campaign in Afghanistan, has lately been submitted to Her Majesty's Government. In the despatch forwarding that list, no reference was made to the two distinguished officers to whom the successful issue of that campaign was in the largest degree due, in consequence of their having already been appointed by Her Majesty the Queen-Empress to the Grand Cross of the Bath in recognition of their eminent services. But I desire, nevertheless, to place formally on record my opinion of the great services rendered to their country by the two officers in question, Lieutenant-General Sir D. M. Stewart and Major-General Sir F. S. Roberts.

Commanding at Kandahar on the outbreak of the second campaign, where his firm but equable administration had secured in a remarkable degree the confidence of the district, Lieutenant-General Stewart was ordered to advance from Kandahar to Kabul with a portion of his force as soon as the season was sufficiently advanced for such an operation. This movement was carried out in April of last year, the march being signalled by the brilliant action of Ahmed Khel, where, owing to the excellent leading of the General and the gallant behaviour of his troops, the enemy was routed with great slaughter at a comparatively small loss to the British. With the victory of Ahmed Khel all serious opposition ceased in Northern Afghanistan, and thenceforward Sir Donald Stewart commanded the united forces in that part of the country. I have in another place endeavoured to do justice to the sagacity, temper, and discretion with which the political functions devolving on the chief commander were fulfilled. The perfect discipline and efficiency which distinguished the army of Northern Afghanistan—one of the largest armies, if not the largest army, ever assembled under a British General in the East—is evidence of the high capacity of its leader for command. The final withdrawal of that army from Kabul and the Upper Khyber was an operation conducted with equal skill and judgment, and deserves all the praise accorded to it by His Excellency the Commander-in-Chief.

I desire also to remark that, while maintaining his transport establishment in a thoroughly efficient state, of which the equipment and immediate despatch of the force detached under Lieutenant-General Roberts to the relief of Kandahar are sufficient evidence, Lieutenant-General Stewart's administration of the armies in Afghanistan, first at Kandahar, and afterwards at Kabul, was distinguished throughout by a strict attention to economy, which cannot be too highly commended.

The force which marched from Kandahar to Kabul under Sir Donald Stewart presented the spectacle, never before I believe seen in the East, of an army in which the fighting men exceeded the camp-followers in number,—a result brought about by the strict discipline maintained by the General, his unwearied attention to administra-

tive details, and the example of self-denial and simplicity set to all ranks by their commander.

That a war which from the nature of the case was necessarily very costly, was not very much more so, must be attributed, I think, in a great measure, to the vigilance and forethought of the General; and on this account also, as well as for the other eminent qualities displayed by him, I consider that the services of Lieutenant-General Stewart are entitled to the particular acknowledgments of the Governor General in Council and Her Majesty's Government.

The eminent services of Sir Frederick Roberts are already known to Her Majesty's Government, while the reception given to the gallant General in England shows how cordially they are appreciated by all classes of his countrymen. That high appreciation is well deserved. The rapid movement over the Shutargardan in October 1879, under circumstances of extreme difficulty, followed by the decisive action of Charasia and the capture of the city of Kabul, constituted a brilliant military exploit reflecting the highest credit on the General, who brought to the task a degree of courage, energy and ability fitly responded to by all ranks serving under him. The services of the General and his gallant brigades culminated in the splendid march from Kabul to Kandahar last August, and the victory of the 1st September, which brought the campaign to an end with an admirable completeness. General and troops were worthy of each other; but a good leader makes good followers; and the spirit displayed by the force which served under Sir Frederick Roberts, especially in the arduous march to the relief of Kandahar, is the strongest testimony to his merits.

FORT WILLIAM;

**RULES FOR THE CUSTODY, DISTRIBUTION, AND SALE OF POSTAGE
STAMP LABELS, &c.**

*Approved by the Government of India in the Department of Finance and Commerce in letter
No. 2837, dated 16th September 1880.*

[*N. B.*—These Rules apply to all kinds of Postage Stamps, with the exceptions noted in Rules V and VIII, in respect of Service Stamps and Soldiers' Envelopes.]

Central Depôts.

I.—There shall be three central depôts for postage stamps in charge of the Superintendents of Stamps at Madras, Bombay, and Calcutta. These central depôts shall maintain* a stock of postage stamps sufficient for two years' consumption. The Superintendents of Stamps in Madras and Bombay shall for this purpose forward, not later than the last week of September† in each year, their respective indents to the Superintendent of Stamps in Calcutta, who will include them in his general‡ consolidated indent for stamps of all descriptions, showing separately the demand for each of the three Presidencies. This general consolidated indent shall be submitted to the Government of India in the Department of Finance in time for transmission to the Secretary of State by the 1st of November† in each year. The Superintendent of Stamps, Calcutta, shall further forward,§ within the first week of October, to the Director-General of the Post Office of India, a copy of the section of the indent relating to postage stamps. Supplies from central to local depôts shall be issued on credit.

* Secretary of State's Financial Despatch No. 125, dated 12th April 1877.

† Government of India, Department of Finance, No. 972, dated 26th February 1880.

‡ Government of India, Department of Finance, No. 3217, dated 11th October 1880.

§ Government of India, Department of Finance, No. 3315, dated 16th October 1880.

Supplies from Central Depôts.

II.—Postage stamps for the Madras Presidency, including Mysore, and the local depôts subordinate to Madras, shall be supplied by the Superintendent of Stamps at Madras on the indent of officers in charge of local depôts.

III.—Postage stamps for the Presidency of Bombay, including Sind, Berar, the Central Provinces, and local depôts subordinate to Bombay, shall be supplied by the Superintendent of Stamps at Bombay on the indent of officers in charge of local depôts.

IV.—Postage stamps for the Bengal Presidency, including the North-Western Provinces, Oudh, the Punjab, Central India, Rajpootana, Assam, and British Burmah, and local depôts subordinate to Calcutta, shall be supplied by the Superintendent of Stamps at Calcutta on the indent of officers in charge of local depôts.

Local Depôts.

V.—Every treasury throughout India, including those attached to political, customs and salt agencies, shall be a local depôt for the sale of postage stamps, provided that the value of the stamps sold at one time to any purchaser shall not be less than Rs. 5, and shall not include any fraction of a rupee. At any station at which there is a collector of land revenue, neither a salt agent nor collector of customs shall be entrusted with the custody and sale of postage stamps. All sales under this rule will be for cash on delivery; and when the purchaser is one of those who are required to retail stamps under Rule VIII (not being a person employed in a Government treasury), or is one specially authorized under Rule IX, a discount of one-half anna per rupee will be allowed. But to purchasers other than the above, no discount will be allowed; and officers in charge of local depôts must see that discount is not allowed except to the privileged officers above referred to. The sale of ordinary envelopes and post-cards shall be subject to the same conditions, except that they shall be sold in packets containing sixteen each, portions of a packet not being saleable. The price

of each packet shall be the value of the stamps borne by the envelopes or post-cards contained in it, the discount (if any) being calculated on that value.

The preceding rule is only partially applicable to "soldiers' envelopes," which will be sold in complete packets only in such treasuries as may be selected for the purpose by the Director-General of the Post Office in communication with the military authorities. Further, on these envelopes *no discount will be allowed*, and the *charge per packet will include the cost of the envelopes*, i.e., 12 annas for the value of the sixteen 9-pie stamps and 2 annas for the cost of the envelopes, or a total of 14 annas per packet.

The preceding rule is also only partially applicable to "service stamps," which may be sold *only to Government officials, on a written application, accompanied by payment of the value in cash; such sales are without restriction as to a minimum amount, and no discount is allowed*. A receipt containing in detail the gross value of each description of service postage stamps sold will be granted by the treasury officer for the amount paid to him. The conditions in this clause are also applicable to service post-cards, with the exception that they shall be sold only in complete packets containing 32 each, portion of a packet not being saleable.

Certain Government treasuries have been specially authorized by the Director-General of the Post Office to sell service stamps to specified particular officials of specified native states, and for such sales, as well as for sales which may be made under future special instructions of like character, the conditions mentioned in the preceding clause shall apply.

VI.—A supply equal to the probable consumption for five months of the district attached to each local depôt shall be kept in each; and as soon as the number in store has fallen below the number expended during the preceding

* Form 1.

six months, the collector, or other officer in charge of the depôt, shall indent* on the central depôt of his Presidency for a number equal to the consumption of the last three months, for which accounts have been rendered to the central depôt of the Presidency. If by any accident the stock of stamps of any value should run short before the receipt of a fresh supply from the central depôt, the officer in charge of the treasury will indent on neighbouring districts for a quantity sufficient to meet the demand, which may be supplied or not, according to the discretion, and on the responsibility of the officer indented on, with reference to the wants of his own district. It will be the duty of the Superintendent of Stamps of the Presidency to report to the Director-General of the Post Office, for the orders of Government, every occasion on which it may appear, from the monthly statement or otherwise, that the store of stamps of any particular value in any district has fallen below the authorized amount.

Branch Depôts.

VII.—Every branch treasury and every tehsil treasury shall be a branch depôt for the sale of postage stamps under the conditions described in Rule V. It will receive its stamps from the local depôt to which it is subordinate, keeping always in store a supply sufficient to meet the probable demands of one month, estimated according to the average of former sales. It will keep an account of sales in the same form (3) hereafter prescribed for the treasurer's account, and will indent for supplies in the same form (4) as hereafter prescribed for the treasurer's indent. It will render an account monthly to the local depôt in Form 6A immediately on the expiration of the month.

Retail sale of Stamps.

VIII.—A supply of stamps *for sale by retail* shall be kept available at every post office, receiving office, tehsildarce, thana, and every police station at which letters are received for despatch, and with every licensed stamp-vendor; and it shall be the duty of the officer, to whom the person in charge of any of the above-named places is subordinate, to take steps to ensure that the supply

kept on hand is at all times equal to at least one week's demand. Persons in charge of the above-mentioned places will receive discount on purchases under Rule V. Superintendents and Inspectors of post offices, within their respective jurisdictions, and any other officers of the post office specially deputed for that purpose or authorized on that behalf by the Post Master General or officer exercising the powers of Post Master General, are empowered to examine the stock of postage stamps kept by a licensed stamp-vendor.

This rule does not apply to "service stamps" or to "soldiers' envelopes."

By the term "licensed vendor," as used above, is meant a stamp-vendor licensed under rules framed by the local Government in accordance with section 55 of the General Stamp Act (I of 1879).

Authorization of certain retail vendors other than the above.

IX.—A district officer may authorize the grant of discount at half-anna per rupee on purchases under Rule V to any person who is a *bonâ fide* retail vendor of postage stamps, although he may not be one of those required to retail them under the above rule. Such authority shall be given in writing, and must be produced by the person authorized when claiming discount on purchases; the authority will hold good for only 12 months from the date on which it is given, and may be revoked at any time at the discretion of the district officer. No such authority may be given to any person employed in a Government treasury. The authority so given may, at the discretion of the district officer, be made subject to conditions to be expressed in the writing of authority in any or all of the following respects, *viz.* :—the maintenance of a sufficient supply of all or any specified denominations of postage stamps for retail: a particular shop, place, or locality, or particular shops, places, or localities, in which postage stamps are to be exposed for sale: the days and hours during which they are to be so exposed, and any restriction upon the sale in shops, places, or localities other than those specified. A register showing the name, residence, and occupation of every person so authorized, and the date of the authority, shall be kept by the district officer. Superintendents and Inspectors of post offices within their respective jurisdictions, and any other officers of the post office specially deputed for that purpose or authorized on that behalf by the Post Master General or officer exercising the powers of Post Master General, are empowered to examine the stock of postage stamps kept by any person so authorized.

The term "district officer," as used above, includes the political officer in a native state who may grant authority to *bonâ fide* retail vendors as provided in the above rule.

Custody of Stamps in Local Depôts.

X.—The bulk of postage stamps in store at any local depôt shall be kept in parcels, containing a known number of sheets, in the treasury or other secure place, in one or more strong chests or presses, under double locks,—the key of one lock of each chest or press always remaining in the hands of the collector or other officer in charge of the stamps, and the key of the other in the hands of the treasurer.

XI.—The remainder of the stamps in store shall be in the hands of the treasurer, and shall not exceed the probable demand of fourteen days, estimated according to the average of former sales.

XII.—The treasurer shall keep a daily account of receipts and sales* in the vernacular of the district, in which the transactions of each succeeding day shall be entered consecutively, a balance being struck at the close of each day, and attested by the initials of the officer in charge of the treasury.

* Form 3.

XIII.—On the first open day of each month, and on every Monday during the month, the treasurer shall prepare in the vernacular, and submit to the officer in charge of the postage stamps, an indent† for a supply of postage stamps for the following week. The indent, after being approved or altered by the officer in charge of the postage stamps, shall be signed by him, and complied with as directed in the following

† Form 4.

rule. The indent thus signed shall be the warrant for the issue of the stamps.

XIV.—The officer in charge of the postage stamps shall cause the store under double locks to be opened, and the required number to be counted and delivered to the treasurer in his presence. A store-book* shall be kept in English, in which the number and value of the stamps delivered to the treasurer shall be entered, and a balance struck at the time of delivery. This balance will be attested by the initials of the officer in charge and of the treasurer, both of whom shall invariably be present during the whole time that the store under double locks, or any part of it, remains open. The deliveries shown in the store-book will agree with the indent as approved.

* Form 5.

XV.—If the treasurer require stamps at any intermediate time, the same process will be observed as is prescribed in the two preceding rules.

XVI.—Stamps will be supplied from the store under double locks only to the treasurer and to branch depôts, and on indent from them respectively. Sales should be made not out of store, but from the supply in the hands of the treasurer or the supply in branch depôts.

XVII.—As soon as possible after the arrival of a despatch of postage stamps from a central depôt, or from any other local depôt, the packets or boxes are to be opened, one at a time, in the presence of the officer in charge of stamps. The stamps contained in each box or packet are then to be immediately counted and compared with the invoice,† which,

† Form 2.

after being receipted, will be returned by the first post to the depôt whence they were despatched. Unless the officer in charge of the stamps can certify that the stamps contained in any given packet or box were immediately counted by himself personally, or in his presence, he will be held responsible for the value of any that may be found deficient. The stamps are then to be placed in the store under double locks and entered in the store-books, and no stamps are to be delivered to the treasurer or sold to any party without being first brought into store.

XVIII.—Officers in charge of stamps will have the stamps in store, both those under double locks and those in the hands of the treasurer, counted in their presence on the last open day of September and March in each official year, and will certify having done so in the following terms at the foot of the monthly accounts of sales and stock‡ for those months furnished to the Superintendent of Stamps:—

‡ Form 6.

"I do hereby certify that I have personally counted the number of sheets of postage stamps of the value of four annas each and upwards in store on _____ 1880, and that their actual value is \$ _____; and I also further certify that the number of complete sheets of postage stamps of a lower value than four annas each, in store on the same date, has been counted by the treasurer in my presence, and that their actual value is \$ _____; and I do further certify that, from the report of the treasurer made to me this day, the actual value of the stamps in his hands amounts to \$ _____; and that the rules prescribed by the orders of the Government of India, dated 16th September 1880, are duly observed."

N. B.—In cases where portions of the stock of stamps are in charge of Tehsil Officers, it will be necessary to obtain a certificate from each of the Tehsildars for the postage stamps in his charge and attach these certificates to the certificate for head-quarter store.

Officer in charge of Stamps.

§ NOTE.—The amounts to be entered in words as well as figures.

XIX.—On occasions of transfer of charge, postage stamps will be made over in the same manner, and under the same precautions, as the cash balance in the treasury.

XX.—The officer in charge of each local depôt will submit, within the first week of each month, an account|| to the Superintendent of Stamps of his Presidency, showing the balance in hand at the sudder and branch treasuries at the close of the preceding month, and the sales effected during that month.

|| Form 3.

Returns to be made by Central Depot, &c.

XXI.—The Superintendent of Stamps of each Presidency will, at the commencement of each month, in addition to any account required by the Accountant General, furnish the Director-General of the Post Office with a memorandum* showing the number of stamps of each description distributed by him during the preceding month and the number remaining in stock at the close of the month.

The Superintendents of Stamps of Calcutta, Madras, Bombay, Lahore, and Nagpur, will, as soon after the close of each month as possible, furnish the Accountant General to the Post Office with a memorandum† showing the total amounts of the actual sales in each local depôt and of all the local depôts supplied by them.

GOVERNMENT STATIONERY OFFICE.

4, CHURCH LANE, CALCUTTA.

Calcutta, the 24th March 1881.

Sealed tenders will be received at this office up to the 1st July 1881, for the supply of the under-mentioned Stationery Stores during the official year 1882-83.

The quantities given in the following list are the *estimated* requirements of the year, but some alterations may be found necessary in these figures when contracts are settled. Contractors must be prepared to supply stores to the extent of 25 per cent. over and above the contract quantities at contract rates, if required to do so.

The stores are required in four equal instalments: the first on 1st April 1882, and the rest at intervals of three months.

Each tender must be accompanied with duplicate samples. Tenderers are *particularly* requested to send a *distinct* sample for each item, and to quote on it the number of the item in the printed list. Of books, it will suffice if one of each size is put in to show the quality of paper and the binding.

Contractors whose tenders may be accepted, will be required to deposit ten per cent. of the amount of their contracts as security for the due fulfilment of the same.

Payment will be made in Indian money fourteen days after delivery and approval here by the responsible officers of Government.

In the event of any dispute as to the quality of the goods tendered, or on any other point arising out of a contract, the decision of the Board of Revenue, Lower Provinces, shall be held to be final.

Any further information on this subject can be obtained by applying at the Office of the Superintendent of Stationery, where detailed lists can also be had.

**CHIEF AND FINANCIAL COMMISSIONER,
AJMERE-MERWARA.**

NOTIFICATION.

Mount Abu, the 7th June 1881.

No. 374.—Under Section 55 of the Indian Stamp Act I of 1879, the Chief and Financial Commissioner, Ajmere-Merwara, prescribes the following Rules for regulating the supply and sale of stamps:—

I. For the purposes of these Rules stamps are divided into two classes:—

Class I.—Adhesive stamps sold to the public for use by them in the case of instruments mentioned in Section 10 of Act I of 1879.

Class II.—All other stamps under Act I of 1879.

II. Stamps in class I may be sold by any person; stamps in class II shall be sold by *ex-officio* and licensed vendors in accordance with these Rules.

III. The treasurer of each district and such ministerial officers at tehsils as may be authorized by the Assistant Commissioner shall be *ex-officio* vendors; such persons

as may be licensed by the Assistant Commissioner or any other officer empowered by the Local Government to grant licenses shall be licensed vendors. The Assistant Commissioner or other officer so authorized shall make such arrangements for the appointment of licensed vendors as will insure that intending purchasers shall only have to apply to the treasury when the stamp they require is one for which licensed vendors do not get discount.

IV. *Ex-officio* vendors shall sell such stamps as they may be directed by the Local Government to sell. Licensed vendors shall sell such stamps as are indicated in their licenses. They should ordinarily be restricted to the sale of stamps of value not exceeding Rs. 10 each.

V. Every license should be issued in the annexed form A, and renewed every year, and it may at any time be cancelled by the authority granting it.

VI. Subject to Rule VIII every person, who purchases from Government by payment of ready money stamps in class I, shall receive the same at such discount, not exceeding the following rates, as may be prescribed by the Local Government—

Per cent.

Stamps not exceeding in value	
8 annas each ...	6½
Stamps exceeding in value	
8 annas each, but not exceeding in value Rs. 5 each	3½
Stamps exceeding in value Rs. 5 each, but not exceeding in value Rs. 50 ...	1½

Via. When any instrument is to be written on an impressed sheet, if the amount of duty with which such instrument is chargeable does not exceed one hundred rupees, a single sheet shall be used, unless, where the application for the required stamp is made at a treasury, the officer in charge of such treasury, or where such application is made to a stamp vendor, the vendor,

(a) certifies that he is unable to furnish a single stamp of the required value;

(b) when the amount of duty chargeable in respect of any instrument exceeds one hundred rupees, or a treasury officer or stamp vendor has certified under clause (a) that he is unable to furnish a single stamp of the required value, the number of sheets used for indicating the payment of duty shall not exceed the number which the treasury officer or the stamp vendor certifies in either case to be the smallest number which he can furnish so as to make up the required amount;

(c) no certificate shall be made, under clause (a) or clause (b), by a stamp vendor in any case in which the stamp duty required exceeds the highest value of the stamps which such vendor is authorized to sell.

VII. Subject to Rule VIII, every licensed vendor, who purchases from Government by payment of ready money stamps of class II, shall receive the stamps at such discount, not exceeding the following:—

	Per cent.
Vendors licensed at places where stamps are sold by Government	3
Vendors licensed at other places	5

VIII. No discount shall be given on account of the purchase of any stamp exceeding Rs. 50 in value, nor on any stamp applied on material furnished by the purchaser himself; nor if there be purchased at one time less than the quantity which may be prescribed by the Local Government in respect of any class or value of stamps.

IX. The Local Government may authorize licensed vendors to be supplied with stamps of either class without requiring payment in ready money; such licensed vendors may receive commission on these stamps, sold by them at a rate to be prescribed by the Local Government, not exceeding 2 per cent. In this case, sufficient security shall be taken from the licensed vendors for the payment of any sum due by them to Government.

X. Every licensed vendor shall, at all times, have affixed in a conspicuous position, outside the place of sale, a signboard bearing the name of the vendor with the words "licensed vendor of stamps" in English and in the vernacular language of the district. He shall also have in the place of vend the Acts of the Legislature and their schedules referring to the stamps sold by him, together with these Rules, in English and vernacular, placed so that they can readily be seen and read by purchasers.

XI. Every *ex-officio* or licensed vendor shall write on the back of every stamp of class II which he sells a serial number, the date of sale, the name and residence of the purchaser, and the value of the stamp in words as well as figures. To this endorsement his own signature shall be attached. At the same time he shall make corresponding entries in a register to be kept by him in such form as the Local Government may prescribe. No such vendor shall knowingly make a false endorsement on the stamp sold, or a false entry in his register.

XII. Every licensed vendor shall without delay deliver any stamp which he has in his possession for sale on demand by any person tendering the value in any currency which would be accepted on behalf of Government by the Assistant Commissioner of the District.

A licensed vendor shall not demand or accept for any stamp any consideration exceeding the value of such stamp.

XIII. No vendor shall sell any stamps the use of which has been ordered by competent authority to be discontinued.

XIV. Every vendor shall keep and render such accounts as may be prescribed by the

Local Government, and shall allow the Assistant Commissioner or any officer duly authorized by such Assistant Commissioner or by the Local Government at any time to inspect the accounts and register which he is required to keep under Rule XI, and to examine the store of stamps in his possession.

XV. Every vendor shall at any time, on the demand of the Assistant Commissioner or other officer duly authorized by the Local Government, deliver up all stamps of class II remaining in his possession, and, if such stamps have been paid for, shall receive back the value thereof less any discount which may have been allowed.

BENGAL CIVIL FUND.

At a Half-yearly General Meeting of Subscribers to the Bengal Civil Fund, Calcutta, held at the Town Hall, on Monday, the 31st January 1881.

PRESENT.—C. T. Buckland, Esq.; the Hon'ble H. L. Dampier; the Hon'ble W. F. McDonell, v.c.; the Hon'ble L. R. Tottenham; H. Bell, Esq., m.a.; the Hon'ble A. T. Maclean; F. R. Hogg, Esq.; J. Souttar, Esq., m.a.; J. Scobell Armstrong, Esq.; C. J. Lyall, Esq., B.A., C.I.E.; H. J. S. Cotton, Esq.; J. Crawford, Esq., B.A.; C. A. Wilkins, Esq.; C. P. L. Macaulay, Esq., m.a.; J. A. Bourdillon, Esq.; S. Jacob, Esq.; F. F. Handley, Esq.; H. M. Kisch, Esq., m.a.; G. A. Grierson, Esq.; and H. Lee, Esq. The Hon'ble L. R. Tottenham in the chair.

The following report was submitted by the Managers:—

REPORT.

1. The Managers submit the proceedings for the past half-year for the consideration and sanction of the meeting.

2. Subject to the approval of the subscribers, they have admitted to the benefits of the Fund the following families:—

Mrs. Halkett	£ 800	The widow of the late Mr. D. C. Halkett, an annuitant of 1877, who died in Scotland on the 11th February 1880.
--------------	-----	-----	-------	----------------------------------------------------------------------------------------------------------------

Mrs. Money	£ 300	The widow and one daughter of the late Mr. D. J. Money, an annuitant of 1859, who died in England on the 16th July 1880.
One daughter	100	
Total	400	

Lady Beadon	£ 300	The widow and eight children (three sons and five daughters) of the late Sir Cecil Beadon, an annuitant of 1867, who died in England on the 18th July 1880.
Eight children	670	
Total	970	

3. Under Article V of the Rules the Marquis of Tweeddale has incurred the penalty of the exclusion of his daughter from the benefits of the Fund by failure to report her birth within the prescribed six months. Lord Tweeddale states that the omission was the result of oversight, and asks that the child may be admitted. The admission of the child to Fund benefits is dependent upon the decision of a general meeting of subscribers; and the Managers submit the case accordingly. They recommend that the child be admitted on payment of the minimum fine of Rs. 100, together with arrear subscriptions and 8 per cent. interest, as required by the rules. It has been the practice of the Fund hitherto to grant applications of this nature on the terms now recommended.

4. Mr. C. R. Marindin has applied for the remission of the fine of Rs. 50 incurred under Article V of the Rules for failure to report the birth of his daughter within the prescribed time. Mr. Marindin pleads that, as his daughter was born on the 30th October and his com-

munication reporting the occurrence was dated 1st December, he was only one day late. He further states that the delay was accidental, and that on his pay-bill for November 1880 being made out, he directed that subscriptions for this child be deducted. He was informed in reply to his application that the fine must be paid and that the Managers would submit his representation to the subscribers at the next general meeting, if he desired it; but that they would be unable to recommend the subscribers to comply with his request. The practice of the Fund has been to exact the penalty of Rs. 50 in all cases where only carelessness or oversight can be pleaded. The case is submitted to the meeting, at the request of Mr. Marindin, for decision.

5. The Managers have received the following further application from Miss Palmer for a reconsideration of her case:—

Dated 5th October 1880.

From—Miss ALICE W. PALMER,

To—The Secretary to the Managers of the Bengal Civil Fund, Calcutta.

I beg to acknowledge the receipt of your letter of the 24th July. I regret that the Managers of the Bengal Civil Fund have not felt themselves at liberty to recommend my appeal to the favorable consideration of the Members of the Service; for I am sure they must perceive the inequality of the rules, that accord to my half-brother, whose mother is living, and supported by the Fund, what they deny to me, who have no living mother to maintain or assist me.

The fact of my step-mother being on the Fund, is held by the Managers to bar my claim to an increase of allowance until after her death, though no bar to the claim of her son, my half-brother, during her life-time.

The fundamental error, as it appears to me, in the rule regarding the "wife or widow," is its failing to recognise the obvious distinction between a mother and a step-mother, in relation to the daughter. The daughter has a natural right to protection from the mother or "widow," but the step-daughter has none, and may be left at any time, to an unaided and admittedly inadequate provision.

My father, as I have stated in my former appeal, was more than forty years in the service, and contributed to the Fund, as the price of his annuity, more than three times the estimated half value of the pension.

Can it be too late, with the permission of the Managers, to re-open my case, as *special* and *exceptional*, at the next general meeting, of the members of the service, or too presumptuous on my part, in again soliciting the support of the Managers which I am certain they would grant me, could they only realise the difficulty, or rather the impossibility, of maintaining even a decent exterior on a limited income of one hundred a year.

I shall feel greatly obliged by your laying this letter before the Managers of the Fund, for such further consideration as they may think proper, and thanking you for your kind attention to my last, and requesting an answer to my present appeal, at your early convenience.

In reply to her previous application Miss Palmer was informed that her case was excluded under the revised rules which provided for the increased pension in the event of the "wife or widow" of a deceased subscriber having died, and that as cases of this description had been carefully considered when the rules were amended, the Managers were not prepared to recommend the subscribers to alter their decision. The action of the Managers was approved at the meeting of 10th August 1880. The present application is laid before the meeting at Miss Palmer's request.

6. The following circular has been addressed by the Managers to the subscribers with reference to a circular issued by certain subscribers in support of two resolutions advertised to be proposed at the next general meeting.

CIRCULAR.

Dated Calcutta, the 11th December 1880.

To—All Subscribers.

I am directed by the Managers to address you with reference to a circular recently issued by certain subscribers in support of two Resolutions which they propose to bring forward at the half-yearly general meeting in January.

2. Before proceeding to discuss the merits of the resolutions, the Managers desire to invite your attention to certain allegations in this circular, reflecting upon the management. It is stated that the Managers allowed unnecessary delay to occur in the preparation of the Actuary's report. If the subscribers will refer to the reports presented by the Managers at the different half-yearly general meetings, they will observe that the Managers have regularly reported to the subscribers the obstacles that had been encountered in obtaining the report, and the efforts that had been made to overcome them. In July 1875 the Managers reported that Mr. Brown, the Actuary, to whom the quinquennial valuation papers of 1873 had been entrusted, had died suddenly, leaving his report unfinished, and that owing to the difficulty experienced in tracing the process adopted by him, it had been found necessary to commission another Actuary (Mr. R. Hardy) to begin a fresh report. After a time it was found that Mr. Hardy was not making such satisfactory progress as might have been wished. In 1876 Mr. Verner, who had been officiating as Secretary to the Fund, had an interview with Mr. Hardy in London, and efforts were made to expedite the submission of the report. As there was still delay, the Managers, early in 1877, begged Mr. E. F. Harrison, the Comptroller-General, who had lately been one of their number, to see Mr. Hardy in London, and to endeavour to close the engagement with him, and to leave them free to select another Actuary. This was reported to the subscribers in July 1877, and it was at the same time announced that, as the delay which had occurred had rendered the information originally submitted for Mr. Brown's consideration practically obsolete, the Managers proposed to submit to professional enquiry the further data which the four years (1873—77) had rendered available. Mr. Harrison was at first disposed to think that the work had better remain in Mr. Hardy's hands. This was reported by the Managers in January 1878. Subsequently, in February 1878, Mr. Harrison reported that he had made an arrangement by which the investigation would be carried through by Mr. Sutton conjointly with Mr. Hardy. The statistical information was then, by Mr. Sutton's desire, brought up to 1878, and forwarded to him. The Managers reported progress in January 1879, and the report was received in July 1879. Not only were these proceedings before the service, but two of the subscribers who have signed this circular had special knowledge of some of the circumstances described above. One (Mr. Cotton) was a Manager in 1875 and the beginning of 1876, and the other (Mr. Verner) officiated as Secretary in 1875 and 1876, and in the latter year was actually engaged in London, on behalf of the Managers, in negotiating for the prompt submission of the report, and was cognizant of the proposal to lay more recent information before the Actuary.

3. It is further suggested that the Managers suppressed the resolution of 28th January 1874. That this is not the case will be apparent from the following extract from the Managers' circular of 13th October 1879, in which they stated the grounds on which they had decided not to recommend that the rules should be amended with retrospective effect from 1st April 1873:—

"The Managers consider it unnecessary to go back further than 31st March 1878 for the adjustment of the accounts. It is a fixed principle in the administration of all systems of insurance that long retrospective effect cannot be given to any distribution of surplus funds. The existing members of a fund are alone entitled to the benefit of a surplus, as they alone bear the chance of having to provide for a deficit. Claims which have become incumbent are represented by separate allotments of funds to provide for them. No risk attaches to them, they have been settled in full, and it would be impossible to manage any institution properly if they were liable to reconsideration. Moreover, the principle of retrospective adjustment, if once admitted, would involve the extinction of the greater part of the surplus, with no appreciable benefit to the Fund. It will be observed that the Actuary's calculation gives only Rs. 6,18,333 as the surplus on 31st March 1878. If, therefore, retrospective effect were given to that date, there would be very little to distribute."

The resolution was also prominently referred to at the meeting of 31st January last, immediately before the vote was taken on the proposal to give retrospective effect to the amendments of the rules from 1st April 1878 only; and the report of the proceedings of that meeting was before the subscribers for the period of two months, required by the rules, before their confirmation of its resolutions was finally accepted. It is stated in the circular that "so long ago as the 30th October 1879, Mr. Cotton protested by letter against the Managers' proposal, but without effect." This letter was communicated by Mr. Cotton to the newspapers simultaneously with its despatch to the Managers; it was referred to in the circular of 22nd November 1879; and it was referred to at the meeting of 31st January, before the vote was taken; Mr. Cotton also informed the Managers unofficially that he did not require a separate reply to his letter; and he afterwards, in March, voted in favour of the resolution, against which he now states that he protested without effect. If Mr. Cotton, the author of the letter, thus adopted the very view against which the letter was chiefly directed, it is very difficult to see how it can be urged that others would have voted differently had their attention been more closely directed to the contents of this letter.

4. From the wording of the first resolution and the language used in the paragraph which precedes it, it would seem that the authors of the circular are of opinion that, under the rules as now amended, the families enumerated do not in any way participate in the increased benefits. As a matter of fact, however, these families are, except in respect of the donation, in exactly the same position, from 1st April 1878, as the families of subscribers who died on or after that date. None of them are subject to the one-sixth deduction; all of them who were motherless on 1st April 1878, and who have since become motherless, draw the increased allowance with effect from the date in question; all the sons draw the special allowance with effect from 1st April 1878. Additions can only be made to benefits by amendments of rules, and retrospective distribution can only be effected by giving retrospective effect to the amendments. The amendments were given retrospective effect from 1st April 1878. They were accordingly to be read as having been in force on that day; and therefore the rule regarding one-sixth deduction ceased to have effect from that day, and every child fulfilling the conditions of being motherless, or, in the case of sons attaining the age of 16 years on or after that day, was necessarily entitled to the new benefits. The donation, however, could only be given to families which became incumbent on or after that day. It could only be granted under the rules on the decease of the subscriber, and accordingly the family of a subscriber, who had died before 1st April 1878, could not claim it. The deductions of one-sixth were wholly eliminated from the Actuary's calculations of the liabilities of the Fund from 1st April 1878, and at page 7 of his second report, he shows the charges placed on the Fund by the extension from that date of the special allowances to motherless orphans, and by the provisions of special allowances to sons attaining the age of 16. The actual effect, therefore, of the first resolution would be simply to give to certain families arrear payments before 1st April 1878 of allowances which they never expect to get, and which accordingly never entered into their calculations in regulating their expenditure. The donation, for instance, is given avowedly to enable the family to meet the expenses incident on settling in a home. Can it be said that there is any reason in giving in 1880 a donation of £200 or £300 to the family of a subscriber who died in 1874 in order to enable them to establish themselves? The Managers are altogether unable to understand how such a proceeding can be recommended on the ground of "keeping faith with the members of our own Service." They will show further on that the proposal as it stands involves a breach of faith with two other classes—annuitants who retired before 31st March 1873 and died before 31st March 1878, and annuitants now surviving. To deprive the families of the former of benefits given to the families of active subscribers who died during the same period, and to tax the latter indefinitely to provide the necessary funds, would be to act in diametric opposition to the terms of the resolution of January 1874, on which the proposals of the circular profess to proceed.

5. With reference to the second Resolution, the Managers do not know why Mr. G. K. Webster is selected for exceptional treatment. It is the duty of the Managers to inform the subscribers that, if this resolution is adopted, there are many other subscribers who will possess similar claims. The amendment of the rule must have effect from 1st April 1873, if it is taken beyond 1st April 1878; and every invalid annuitant who retired in the interval will come within its purview. Mr. Richardson Evans is precisely in the same position as Mr. Webster: he retired in March 1877, and, like Mr. Webster, secured one-fourth benefits only to his family. Messrs. W. Johnstone, P. Humphrey, E. Waterfield, and G. Graham retired between 1873 and 1878, making up their balances to Rs. 12,500, and securing half benefits. If Mr. Webster is to be admitted to the same position without paying anything, clearly the amounts paid by these gentlemen, not being demandable under the amended rule, must be refunded. Messrs. C. E. C. Merington, H. Priestly, D. W. Marsden, H. M. Rogers, I. Hurley, and E. M. Money have not made up their balance to the minimum of Rs. 6,250, and have consequently ceased to belong to the Fund. If the operation of the amendment is thrown back so as to secure half benefits to Mr. Webster's family, these subscribers must also be restored, and the Fund must undertake liability for their existing or future families. The cost of this measure alone to the Fund would be nearly Rs. 70,000.

6. But the Managers must point out that the proposal to extend special consideration to invalid annuitants who retired between 1873 and 1878 is not reasonable, even on the grounds on which the other proposals of the circular are supposed to rest. The argument of the circular is that the subscribers of 1874 only abstained from utilizing the then existing surplus in certain ways, on the understanding that their families would not lose by the postponement, and that their expectations must be fulfilled. Now, it is clear that those expectations could only extend to measures which had been already discussed. But the proposal to deal specially with invalid annuitants was never mooted till 1879. Clearly, therefore, any invalid subscriber retiring before 1st April 1878 was innocent of any expectation of special benefit of this nature, and the subscribers have not even an imaginary duty to fulfil in regard to him.

7. The Managers cannot accept the proposal to exclude from the additional benefits the families of annuitants who retired from the service before 31st March 1873, but who died before 31st March 1878. The arguments that they were not voters when the resolution of January 1874 was carried, and "were not considered when that vote was passed," are such as have not hitherto been resorted to in dealing with Fund

questions, and they will not, the Managers apprehend, find favour with the subscribers. Though annuitants are, from the accident of their position, debarred from active co-operation in the administration of the Fund, they have, it is needless to say, precisely the same rights in the Fund that active subscribers possess. To exclude them from benefits because they were not present to assert their rights, or to cause themselves to be considered, would be a proceeding out of harmony with the spirit that has hitherto governed the action of the Service. The proposal, however, is impracticable as well as unjust. The same error has been made here as has been made in regard to the position of incumbent families on 1st April 1878. As has already been said, additions can only be made to benefits by amendments of rules, and retrospective distribution can only be effected by giving retrospective effect to the amendments. If it is intended to give retrospective effect to 1st April 1873, every case occurring on or since that date must be dealt with as if the amended rule applied to it. Therefore the families of deceased annuitants must have precisely the same privileges as those of deceased active subscribers, however little the interests of the annuitants in question may have been considered by those who voted away the surplus funds.

8. Before proceeding to discuss the estimate of the cost of the proposed measures, it is necessary for the Managers to advert to the source from which it is sought to obtain the funds required. It is proposed in the circular to meet the increased charges "by a further postponement of the total exemption of annuitants." Now, the resolution of January 1874, on which the circular relies, provided that "any benefits that may be distributed shall have retrospective effect from the 1st April 1873." It is not easy to see how those who rely upon this resolution can propose, not only not to give retrospective effect to one of the benefits decreed, but to postpone it indefinitely. The Managers apprehend that it is not open to those who consider the resolution binding to proceed directly against its terms, in order, amongst other things, to provide funds for a measure which it did not contemplate.

9. It is estimated in the circular that the cost of the proposals would be "about two lakhs, or perhaps rather more than two lakhs;" but no details are given to show the basis on which the estimate was framed. With reference to this point it may be mentioned that, in returning to Mr. Cotton his draft circular, the Managers warned him that many of his statements were open to contradiction, and that the liabilities which his proposal involved would "certainly enormously exceed" his estimate of two lakhs. The proposals are too vague to be made the subject of a precise estimate. In the first place the Managers have shown that the greater part of the effect intended by the signatories is already included under the Resolutions of January, so that the actual effect in regard to the families named is much less than the signatories intend. But, on the other hand, it is clear that the proposals cannot be accepted without entailing several extensions beyond what the circular contemplates. Taking the proposals as they appear to the signatories of the circular, the Managers have no hesitation in saying that the estimate should be multiplied by at least five. Taking them as they must in any case be modified by the considerations which have been detailed above, the Managers present the following estimate of the real cost of giving effect to the amendments of the rules from 1st April 1873, with the exception of that regarding the ordinary subscriptions of annuitants:—

	£
Refund of one-sixth deductions	11,350
Refund of additional subscriptions, composition, &c.	11,460
Increase of £50 to sons	3,050
Increase of 50 per cent. to motherless orphans	11,300
Donations	12,350
Refund to invalid annuitants	1,460
Value of contingent and potential benefits to families of invalid annuitants who have left the Fund, so far as known	5,430
Total	56,400

As regards the proposal to retain the ordinary subscriptions of annuitants in order to cover this charge, it must be remembered that these subscriptions have been provisionally retained, on the ground that the proposals already carried out have left the Fund considerably in deficit. Mr. Cotton's proposal would leave the Fund in deficit by 5½ lakhs in addition to the present deficit of about 3 lakhs, making a total of at least 8½ lakhs. The retention of 4½ lakhs would only meet half of this deficit. To carry out the proposals now made, therefore, it would be necessary either to continue the subscriptions of annuitants to both branches for a practically indefinite period, or to impose additional rates on active subscribers. The Managers think it right to inform the subscribers that the first course is not open to them consistently with the undertaking already given by the Service. In 1869 the subscribers decided by a majority of 92 to 11 to amend the rules so as to relieve annuitants of all charges except a composition rate of one-tenth of their subscriptions, which was to be maintained under the erroneous impression that some payment would be required to ensure correct returns of family occurrences. As the Actuary reported that the Fund could not afford this measure in full, it was decided "for the present" to reduce annuitants' subscriptions only by half. But it has always been recognized that the Service is committed to the remission of annuitants' subscriptions as soon as the Fund can afford it. The circular professes to rest upon the general resolution of January 1874,—the provisions of which, however, it proposes to infringe, but it takes no cognizance of a formal amendment of the rules deliberately adopted by the Service, and avowedly only suspended for a time on financial grounds.

10. It remains therefore for the subscribers to decide whether they are willing to impose additional taxation on active members in order that certain families may receive arrear payments, for a period which closed more than two-and-a-half years ago, representing allowances which they never expected to receive and for which the occasion has necessarily passed away, and that a number of invalid annuitants may be placed in a position which, at the time of their retirement, they could not possibly have contemplated. The Managers have little doubt what the decision of the Service will be.

11. In conclusion, the Managers desire me to say that while they are most anxious that all proposals affecting the Fund should receive the fullest possible discussion (and of this they have given ample proof in the communications addressed to the subscribers before the proposals carried in January were formally submitted), and that the records of the Fund Office should be consulted to the fullest extent by every subscriber, they must point out the impossibility of carrying on the administration of a great institution like our Fund, if there is to be no finality in formal amendments of rules. In the present instance the measures for distributing the surplus were fully discussed before they were formulated; they were under consideration by the subscribers in their formal shape for two months before the general meeting was held; they were discussed at the meeting; they were, after being carried with only one dissentient vote in a meeting at which 45 subscribers were present, submitted for two months to the further consideration of the Service, and they were confirmed by an overwhelming majority. Eight months after this confirmation certain gentlemen re-opened the discussion. Even had these gentlemen consistently opposed the resolutions of January, the Managers think that they should have accepted the decision of the majority of the subscribers. But it is a remarkable circumstance that not one of them recorded a vote against the measures which they now so vehemently assail. Three of them voted unreservedly for all the resolutions. The other signatories of the circular did not feel themselves called upon even to return the voting papers supplied to them.

With this exposition of the circumstances, the Managers leave it to the Service to pronounce its decision on the question. In order that Members who cannot be present at the meeting may be able to record their votes on one side or the other, the usual form of proxy is enclosed. The Managers hope that Members of the Service will not fail in these important discussions to exercise their privilege of recording a distinct vote, so that some finality may be attained.

I have, &c.,

COLMAN MACAULAY,

Secretary.

Mr. Cotton has announced in the public papers that he does not intend to bring forward the Resolutions in question: but the Managers have received no communication from him on the subject.

The following letter has since been received by the Managers:—

TO THE MANAGERS OF THE BENGAL CIVIL FUND.

GENTLEMEN,

WE have had under consideration your circular of the 11th instant on the subject of the retrospective effect to be given to the increased benefits from the Fund to the families of subscribers deceased since 1873. We have also read the letter published by Mr. Cotton in to-day's *Englishman*, in which that gentleman announces (for the first time) his withdrawal from the positions originally taken up by him in common with the rest of us.

2. In the circular to which we attached our signatures, we took up two prominent and important positions—the *first*, to the effect that a resolution which had received the formal sanction of the service, and which consequently, under paragraph 2, Articles 17 and 18 of the rules, was “finally adopted” and became “final and conclusive,” had never been formally rescinded by the service; and the *second*, that certain increased benefits should be extended to the families of certain specified deceased subscribers with retrospective effect from April 1873.

3. The second of these positions has been, we consider, disposed of by your circular already alluded to. We now understand that it has been your intention to extend to the families of subscribers dying between 1873 and 1878 very much what our first proposal was intended to secure for them, inasmuch as it is now stated that such families are to be included in the increased benefits which are to accrue from April 1878.

4. But our first position remains, in our opinion, intact. We do not find in your reply any specific statement to the effect that the final and conclusive resolution arrived at by the service has been formally cancelled or rescinded by the subscribers, who alone have power in the matter. We do not find that the question of rescission has been ever formally put to the subscribers as it should be. The fact that the resolution of the Managers was “prominently referred to” on the occasion of the vote being taken thereon has not, we consider, that formality which the rules require; and the further argument that the majority of the service voted for the accrual of the increased benefits from April 1873, while it shows indeed that the subscribers were willing to go so far, falls short of a resolve on the part of the service that they should go no further. It is true that in your circular of the 11th instant you state that “the vote was taken on the proposal to give retrospective effect to the amendments of the rules from the 31st April 1878 only.” But if you will refer to the report of the meeting held on the 31st January 1880, as well as to the vote paper separately circulated amongst all subscribers, you will find that this word “only” occurs in neither; and we think you will agree with us that many who did vote on that occasion may not have understood that they were voting for the entire cancellation of the former resolution of the service, and that the word “only” should not, therefore, have been inserted in the circular-reply. Taking, therefore, into consideration the whole facts of the case as they are now before us, we are of opinion that the resolution of January 1874 should now be formally and specifically cancelled or amended so as to meet the circumstances of the Fund, so as to allow an accrual of increased benefits from April 1878 only.

5. We have only to add that for the accuracy of the statements contained in our previous circular we are not directly responsible. We were not all in a position to satisfy ourselves from a personal inspection of the records of the Fund as to the accuracy of these statements, and some of us accepted them on the distinct declaration (communicated to us) that they were statements of absolute and undeniable facts.

6. We are now content to leave the matter in the hands of the Managers, being satisfied that we have done our duty in bringing what we consider to be an omission to the notice of the service, and that the Managers will be, equally with ourselves, desirous to rectify this omission so as best to suit the interests of all subscribers.

We have, &c.,

G. J. B. T. DALTON.

A. A. WACE.

C. A. WILKINS.

F. C. DAUKES.

J. A. BOURDILLON.

L. C. ABBOTT.

The 25th December 1880.

With reference to the last paragraph of this letter, the Managers are satisfied that the decision arrived at represents fully the wishes of the service at large, and they are of opinion that no further formal action on their part is required.

7. In accordance with Article XXII of the revised rules, the Managers have to report that the Hon'ble J. O'Kinealy having obtained six months' leave of absence from 11th October last, tendered his resignation as an elected manager, and that the Hon'ble H. J. Reynolds was invited to join the Board of Managers in succession to Mr. O'Kinealy.

8. The following is the result of the voting on the resolution of the Special General Meeting of 22nd November:—

“That so much of the amendment of Article VIII of the Rules, adopted at the Half-yearly General Meeting held on 31st January last, as regards the subscriptions of annuitants to the Ordinary Branch of the Fund be held in abeyance.”

Proposed by *The Hon'ble A. Mackenzie*, Seconded by *Mr. D. M. Barbour*, and carried.

THAT the following gentlemen be elected Managers for the ensuing year:—

Hon'ble Mr. Justice McDonell, v.c.; Hon'ble H. J. Reynolds; J. Mouro, Esq.; A. Forbes, Esq., and C. A. Wilkins, Esq.

Mr. Cotton said that he rose to make a personal explanation, and also to make a statement which he thought, in the opinion of the subscribers present, would call for explanation from the Board of Management. Although he had no especial authority to do so, he felt that in the remarks he was about to make he might speak both for himself and for the other gentlemen who had joined with him in signing the appeal-circular to the subscribers dated 26th November 1880. That circular was in the hands of all present. It proposed that the increased benefits awarded at the General Meeting of 31st January 1880, should be awarded (in accordance with the Resolution of the 28th January 1874) so as to include the specified families of subscribers who died after the 1st April 1873, but before the 1st April 1878, from which latter date only the benefits were declared by the meeting of 31st January 1880 to have effect. It had subsequently been explained by the Managers, in their circular of the 11th December 1880, that the families of the subscribers who died within this quinquennial period "were, except in respect of the donation, in exactly the same position from 1st April 1878 as the families of subscribers who died on or after that date." So that in point of fact the appeal which he and others thought it necessary to make to the Service had substantially been allowed by the management, and there was no necessity therefore for him to press the resolution of which he had given notice.

He would explain, however, that the authoritative interpretation now given by the Managers, of the retrospective character of the benefits recently awarded, was a novel one and directly inconsistent with the interpretation the Managers had themselves put upon the same point in the circular letter in which they had recommended those benefits for the approval of the Service. In that circular, dated 13th October 1879, it was distinctly explained that the families of subscribers who died before 1st April 1878, would be ineligible for any increased benefits that might be awarded. The arguments of that circular had never been disavowed or contradicted. They had gone abroad to the Service as indicating the policy it was intended to follow in regard to the distribution of benefits, and *Mr. Cotton* for one certainly understood from them, and he believed that almost every member of the Service was also with him in understanding from them, that the families of subscribers who died before 1st April 1878, were excluded from all participation in the increased benefits recently awarded.

In order to justify these remarks and the public action he had taken in consequence of the opinion he held, he would read to the meeting extracts from the Managers' circular of the 13th October 1879. That circular was sent along with a copy of the Actuaries' report, and "submitted proposals for the distribution of the surplus as ascertained by Mr. Sutton." Paragraph 3 of that circular is expressed as follows:—

"3. The Managers consider it unnecessary to go back farther than 31st March 1878 for the adjustment of the accounts. It is a fixed principle in the administration of all systems of insurance that long retrospective effect cannot be given to any distribution of surplus funds. The existing members of a fund are alone entitled to the benefit of a surplus, as they alone bear the chance of having to provide for a deficit."

He begged to call particular attention to the last-quoted sentence. It meant, as plainly as words could say it, that members of the Fund who had died before 1st April 1878 would not be entitled to the benefit of the surplus, and the reason it gave for their exclusion was, that as they were dead and no longer subscribers, it would be impossible to impose upon them any liability to provide for a deficit. Under this interpretation there could be no doubt that the families of the late Messrs. Schaleh, Geoghagan, Carpenter, Falcon, and others, enumerated in the appeal which he and his co-signatories had made to the Service, would be excluded once and for all from any participation in the increased benefits. He would continue reading from the 3rd paragraph of the Managers' circular:—

"Claims which have become incumbent are represented by separate allotment of funds to provide for them. No risk attaches to them, they have been settled in full, and it would be impossible to manage any institution properly if they were liable to reconsideration."

These words also can bear but one meaning. They mean that funds had been appropriated on account of the families of subscribers who died before the 1st April 1878, and that it would be impossible to readjust the amount of appropriated funds so as to admit those families to any subsequently sanctioned increase of benefits.

The same paragraph proceeds:—

"Moreover, the principle of retrospective adjustment, if once admitted, would involve the extinction of the greater part of the surplus, with no appreciable benefit to the Fund."

This sentence, when read with the context of the words which precede it, has no other meaning than that the Managers were opposed to granting increased benefits to the families of any subscriber who died before the 1st April 1878, on the ground that, by so doing, they would swallow up the greater part of the Fund surplus.

The Managers then proceeded, in the circular from which he was quoting, to describe the increased benefits proposed, and to estimate the cost of each. In the seventh paragraph they summarise their remarks, and continue, in language which must clear away the faintest doubt that may have lingered in the mind of any reader, as follows:—

These measures (i.e., above recited benefits) as well as the abolition of the rule regarding one-sixth deductions, the Managers would wish to see introduced at once with retrospective effect from 1st April 1878, the first day of the new quinquennial period,—that is, they will be applied to all pensions which have become incumbent on or after that date."

Here is a distinct exclusion of all pensions which had become incumbent before the 1st April 1878. There is nothing more wanted to show that, in the opinion of the Managers, on the 13th October 1879 the families of all subscribers who had come on the Fund before 1st April 1878 were to be excluded from any participation in the increased benefits. This at least is the view *Mr. Cotton* took, and this is the justification—he ventured to think it was a satisfactory one—that he had now to offer to the Service for the action he had taken. In this view of the case he had recorded a formal written protest from Chittagong, where he was stationed at the time of the last January meeting. At that meeting it is true the subject was just alluded to, but nothing explanatory of the circular of the 13th October, or in any way modifying the observations therein expressed, was elicited from the management.

Mr. Cotton being fully occupied with other concerns was then inclined to let the matter drop, but he was moved to act again on the representation of others who had a personal interest in seeing that the incumbents of the Fund, during the quinquennial period from 1873 to 1878, were not excluded from the increased benefits. He accordingly, on the 6th September 1880, addressed the Secretary to the Fund with the same arguments as those on which his own and his co-signitaries' circular of the 26th November was based, and in order to avoid any division in the Service, asked the Managers to identify themselves with a proposal, that the increased benefits should be distributed with retrospective effect, so as to include the families of all subscribers who died during the quinquennial period from 1873 to 1878, and pointed out that this was in accordance with the Resolution of the 28th January 1874, which enjoined that "any benefits that may be distributed shall have retrospective effect from the 1st April 1873." In reply to this representation *Mr. Cotton* received a letter on the 15th September, in which it was said that the Managers "did not consider that they could profitably enter on a discussion of an informal proposal, made by a single member of the Service, to set aside a Resolution almost unanimously adopted by the Service at a recent General Meeting." There was no mention in this reply that *Mr. Cotton* was labouring under any misapprehension in regard to the actual retrospective distribution of the benefits, or that the Managers in any way repudiated the principles and proposals they had enunciated in their circular of the 13th October 1879.

Failing to get any satisfaction from the management, and relying entirely on the statements of the Managers in their circular of October, which it never occurred to him for one moment to mistrust, *Mr. Cotton* then consulted certain other members of the service as to the course he should pursue, and the result was the issue of the circular—appeal to the Service, dated 28th November 1880. The result of this appeal was that Managers proceeded to make an elaborate exposition of the case for the information of the Service.

The manifesto of the Managers, dated 11th December 1880, was a most valuable document, and although it contained many passages, personal allusions, as well as other points open to much objection, *Mr. Cotton* did not propose to detain the meeting by indulging in any criticism in regard to them. He might say in passing that he considered the expression "vehement assault" contained in the penultimate paragraph was quite uncalled for by any of the language used in his own circular. But he did not wish to dwell on such matters. He would refer to the fourth paragraph only, and was glad to express his unqualified satisfaction that the Fund management had now been able to place such an interpretation on the retrospective clause as to admit the families of all subscribers who died before 1st April 1878 to the full benefits now sanctioned (except donation), equally with the families of subscribers who may die, or have died, after that date. The Managers had now virtually conceded what he and his co-signitaries had asked for, and the only regret he had to express was that the Managers had not thought fit to favour him personally with this explanation (which had now, as it were, been furnished at the eleventh hour) when he addressed them in September last on the subject. Had the Managers at that time discussed the matter with him, or supplied him with information, which presumably at that time was available, showing that their October circular was no longer to be accepted as an indication of the Managers' policy, much time and trouble would have been saved.

Mr. Cotton had now completed the personal explanation he had to make to the meeting. He would now ask the Managers to furnish the explanation he thought was due from them to the meeting,—that is to say, he would ask them to reconcile the contradictory statements he had pointed out that afternoon, between the remarks contained in the circular of the 13th October 1879 and those contained in the fourth paragraph of the circular of the 11th December 1880. Before he sat down, however, he wished to make some remarks regarding the distribution of the surplus, with retrospective effect, to the families of invalid annuitants. This was

a point prominently alluded to in the appeal-circular of the 28th November. The name of Mr. Webster was particularly cited in that circular, because from the information available to the drafters of that circular it could not be discovered that any other invalid annuitant occupied a similar position to his. The facts of Mr. Webster's case were that he retired with a family in 1877, and now subscribes at quarter rates, and that under the Resolution of 1880, his wife and children on his death will only get quarter benefits, calculated on the increased allowances now awarded; but if the benefits recently sanctioned are extended as contemplated by the Resolution of 1874, they would be entitled to half benefits calculated on the increased allowances. It is now explained by the Managers that there are other subscribers who possess similar claims to those of Mr. Webster, and that if half benefits were guaranteed to Mr. Webster's family, it would be necessary to restore other subscribers to the Fund, and that the Fund would have to undertake liability for their existing or future families. The cost of such a measure is estimated by the Managers at nearly Rs. 70,000. It appeared, however, to Mr. Cotton that this estimate would probably be found to be excessive. He observed that in the Managers' circular of 22nd November 1879, in which the concession of this benefit generally to the families of invalid annuitants was discussed and recommended, it was stated: "The provision will not affect wives married, and children born of such wives after retirement. The cost of the benefit proposed by the Managers will not be great. Cases of this nature are so rare that they cannot be accurately valued." The benefit at that time was considered a very inexpensive one, and yet when the Managers were asked to extend it to the families of the invalid annuitants during a single quinquennial period, they pointed out that for these families only the benefit would cost nearly Rs. 70,000. It occurred to Mr. Cotton that when the management were in favour of a proposal, there was a tendency among the Managers to under-estimate its cost; but that when they were opposed to a proposition, they were liable to a tendency to pronounce the cost greater than it really was. In the present case it must be remembered that the benefit proposed "would not effect wives married, and children born of such wives after retirement." It was Mr. Cotton's belief that, of the invalid annuitants between 1st April 1873 and 1st April 1878, not above two or three were married at the time of retirement, and it was in his opinion out of the question to say that it would cost nearly Rs. 70,000 to extend the recently sanctioned benefit to the case of these families. Those who retired as bachelors could have no claim on the Fund on account of this benefit. It appeared to Mr. Cotton that the Managers had lost sight of this fact, and he questioned therefore the accuracy of their calculations. He threw himself on the favourable consideration of the Managers and of the meeting in dealing with this question. There was no class of subscribers for whom the members of the Service ought to feel greater sympathy than for the invalid annuitants. They were all men out off from active service in the prime of life, with pitiful annuities hardly sufficient to support existence, and their families, in the event of their death, will be even in still narrower circumstances. It was not for Mr. Webster's family only that he was pleading, but for the families of all other invalid annuitants who had retired between 1873 and 1878, and whose position under the rules was similar to that of Mr. Webster's family. He was sure that if the accounts were again made up, the cost of this concession would come to a very insignificant total compared with the resources of the Fund and the value of the benefit to the family in each individual case. He earnestly hoped that the Managers and the meeting would consider his plea, and, as a special case, or as a special favour, allow the wives married to, and children born of, the invalid annuitants of this quinquennial period, at the time of retirement, the full value of the benefits awarded to the families of invalid annuitants by the Resolutions passed at the last January meeting.

Mr. Westland said he was surprised to find Mr. Cotton, when he rose to address the meeting, instead of offering an apology to the Managers, had proceeded to demand explanations of them. The proceedings which culminated on the resolution of last January had been characterized by the utmost deliberation, having been submitted to the Service for discussion for some months before the meeting, and afterwards in accordance with the rules for confirmation after it; he thought that Mr. Cotton should have been more careful before challenging the resolutions, and re-opening the whole matter by a new agitation. It was only twelve months since he (Mr. Westland) in this same place had complained of Members of the Service rushing into print, and getting up agitations without first making some enquiry as to their facts. Last year's agitation collapsed the moment a simple statement of the fact was made. This year's had collapsed for the same reason even before it came up for discussion.

Mr. Cotton had tried to justify his misapprehension of the facts by quoting from a Circular of the Managers of October 1879, in which they had asked for the opinions of the Service. The fact was that the Managers, after consulting the Service, and receiving, among other communications, one from Mr. Cotton himself, had determined to frame the resolutions so as to give the new benefits more of retrospective effect than they at first indicated; and Mr. Cotton, if he wanted to know what the effect of the resolutions was, should have looked to their wording, and not merely excerpted a statement from the discussions preceding it. At the meeting of January 1880, when the resolutions were brought forward, a valuation of their effect was printed and laid upon the table, where an entry would be found of the very benefits which Mr. Cotton was proposing by his first resolution; and afterwards in the Actuary's report, which was circulated to all the Service, the same entry was made, viz., "present incumbents" upon page

7. If Mr. Cotton had only read the documents sent him, he would never have been under any misapprehension as to the purport of the resolutions.

Then, besides that, Mr. Cotton sent a copy of his proposed circular to the Managers, and was distinctly informed that "many of his statements were open to contradiction." But the only result was, as appeared from a letter now received from Mr. Cotton's co-signatories, that the circular was sent to them for signature, with the assurance that "they were statements of absolute and undeniable facts." It was plainly Mr. Cotton himself and not the Managers who were responsible for the former so completely misunderstanding the facts of the case concerning which he had undertaken to address the Service.

As the other point raised by Mr. Cotton,—the case of the invalid annuitants,—Mr. Westland said that he was very sorry to appear to press hard upon any individual. Mr. Webster was a friend of his own, and he could not but sympathize with him in the misfortunes which had closed to him an Indian career. But the Managers were dealing in this matter with money which they held as trustees, and they would manifestly fail in their duty, if, instead of holding the scales evenly between all parties, they were to give special consideration to the hard cases which happened to come to their personal knowledge, or with which they might have some personal sympathy. Mr. Webster had at the time of his retirement deliberately chosen to insure his life for quarter benefits, and that at a time when no question had been raised about giving any extension in that direction. His case was not distinguishable from that of a person who, after insuring his life in an assurance office for £500, should apply that, in consideration of his special hardship, he might get £1,000 instead, and he would leave the meeting to judge what the Directors' reply to such an application would be. It was manifestly impossible for the Managers to accept Mr. Cotton's motion to separate off Mr. Webster's case for special treatment.

On the question of valuations Mr. Westland warned the meeting of the carefulness necessary in discussing all questions of increased benefits. The Managers drew up careful valuations of all that they themselves proposed, and the details of these were as open to Mr. Cotton as to any other person. All these questions were matters of very serious responsibility, and he warned the service of the extreme danger they would be led into, if they permitted private members to brush aside all careful calculations upon the mere plea that their own inner consciousness gave a result that differed from that arrived at by mathematical processes. He also explained the details of the Rs. 70,000, stated by the Managers as the cost of the application of Mr. Cotton's proposal to such invalid annuitant cases as were known.

Mr. Dampier said that before the subject was dropped, he would like to ask Mr. Westland on behalf of the Managers a question—

If before the next meeting Mr. Cotton were to address the Managers saying that he proposed to bring forward a motion that the service should as a matter of grace admit all subscribers whose cases stood on all fours with that of Mr. Webster, to the extra benefits which had been proposed for Mr. Webster, and asking the Managers to assist him in getting up his case by furnishing a list of such members, and of the probable cost which the measure would entail, what answer would the Managers make to such an application?

No one could regret more than he did the growth of what he might term an opposition to the Managers, which was inclined to be overwilling to call them to account for informalities rather than to accept what they did on its merits.

Mr. Barbour pointed out that the question raised by Mr. Dampier was not before the meeting, and that Mr. Westland had no authority to speak for the Managers.

Mr. Westland said that he had no business to answer for the Managers in such a matter, as of course it would come before the Board for settlement, but that for himself he might say that, if Mr. Cotton, or any other member of the Service, desired to bring forward any reasonable proposal, he would give him every facility for obtaining information from the records of the Fund Office; and if Mr. Cotton wished to bring forward such a motion as Mr. Dampier mentioned, he (Mr. Westland) would also be happy to give him personal assistance.

Mr. Dampier said that his question was now completely and satisfactorily answered. After a vote of thanks to the Chair the meeting dissolved.
